The reefs of Raja Ampat are like a painter's pallet swirled with color! Surrounded by these pristine reefs on a private island is Misool Eco Resort, a true tropical paradise. This resort wins the hearts and minds of its guests with great food, rooms, amenities and top class diving adventures throughout a healthy and vibrant reef system.

Misool is surrounded by its resort patrolled 470 square miles of a "No Take" zone. This protected ocean oasis contains dive sites with remarkable diversity. There are some areas where soft corals and sea fans dominate, others with spectacular hard coral seascapes, mangroves, shallow reefs, drop offs, caves, black sand, white sand and seagrass beds. All of these environments combine to house an enormous amount of marine life, in more shapes and sizes than anywhere else in the world. Manta rays, with 18 ft. wingspans are frequently sighted, along with dolphins, black tip sharks and breaching mobula rays. The reefs of Raja Ampat literally buzz with life!

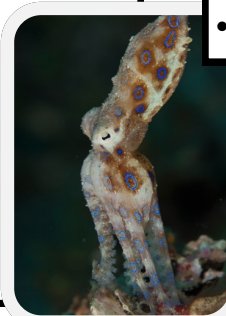

Misool Eco Resort is environmentally aware and built with sustainability in mind. The villas, made from locally milled and reclaimed wood with grass roofs, are situated over the ocean, which provides an easy way to dip into the sea for an afternoon snorkel or swim.

Join us for this amazing adventure and be prepared for an experience that is second to none!
