DIVE TRAVEL CATALOG

DIVE THE WORLD FROM THE ROCKIES

Nine guided adventures for first-time travelers

Travel with confidence. Dive with purpose.

WELCOME ABOARD

Your First Passport Stamp Starts Here

Never left the country? Perfect. This catalog was built for you.

Every trip in these pages is a guided group adventure led by High Plains Scuba Center. You will not be figuring any of this out alone — we handle the hard parts, dive right beside you, and make sure your very first international trip feels less like a leap and more like a well-marked trail.

What makes these trips different is simple: you travel with a group of divers from right here in Colorado, guided by instructors you already know. From the moment you roll your bag into Denver International Airport to the moment you clear customs on the way home, you are part of a team.

On the next page you will find everything a first-time traveler needs to know before wheels-up. After that, nine hand-picked destinations — each one showing you exactly how you will get there from Denver, what you will experience, and how you will get home again.

Read it like a map. When one of these places grabs you, call us. We will hold your spot and walk you through the rest.

Ready when you are.

Call High Plains Scuba at 970-493-8562 to reserve your spot.

A First-Timer's Checklist

A first-timer's checklist — start here, months before wheels-up

1. Get Your Passport (do this first, today)

- ▶ A U.S. passport book is required for every trip in this catalog. Apply at a passport acceptance facility — many Fort Collins post offices and the Larimer County Clerk qualify. Search “passport acceptance facility near me” for an appointment.
- ▶ Routine processing can take 6–10 weeks or longer in busy seasons. Apply the moment you commit to a trip — do not wait.
- ▶ Your passport must be valid for at least 6 months beyond your return date. Many countries deny boarding if it expires sooner.
- ▶ You will need a passport photo (the acceptance facility can take it), proof of citizenship (certified birth certificate or old passport), and a photo ID.
- ▶ Once it arrives, sign it, and write your emergency contact in the back. Photograph the ID page and email it to yourself.

2. Entry Rules & Visas

- ▶ Good news: for U.S. citizens, none of these nine destinations require a visa arranged in advance for a short tourist/dive trip. Most give you an entry stamp or a simple visa-on-arrival at the airport.
- ▶ Indonesia (Komodo) issues a Visa on Arrival for a small fee, payable by card or cash when you land — we will prep the group for this.
- ▶ Some countries collect a small departure or tourism fee. HPS tells you the exact amounts before departure so nothing surprises you.
- ▶ Fill out any customs/immigration form on the plane before landing. Keep a pen in your carry-on.

3. Travel & Dive Insurance (non-negotiable)

- ▶ Get DAN (Divers Alert Network) dive-accident insurance — it covers chamber treatment and dive-specific emergencies your regular health plan will not. HPS can point you to a membership.
- ▶ Add trip-cancellation / travel-medical insurance too. It protects your investment if you get sick, a bag is lost, or a flight is cancelled.
- ▶ A few liveaboard trips (Socorro especially) require proof of dive + evacuation insurance to board. No proof, no boarding — so buy it early.

4. Money, Phone & Health

- ▶ Tell your bank and card company your travel dates so they don't freeze your card abroad. Bring one card that charges no foreign-transaction fees.
- ▶ Never exchange money at an airport currency desk — the rates are the worst you'll find. Use a bank ATM after you clear customs, and always choose to be charged in the LOCAL currency (decline “convert for me”).
- ▶ Carry a small stack of clean, unworn U.S. bills (\$1s, \$5s, \$10s) for tips and taxis. Many crews and drivers can't break large bills.
- ▶ Set up an international plan or an eSIM with your carrier before you leave. Download offline maps of your destination.
- ▶ See a doctor or travel clinic about routine vaccinations well ahead of time. Pack any prescriptions in your carry-on, in original bottles.

5. Packing for a Dive Trip

- ▶ Carry-on the irreplaceables: passport, wallet, phone, medications, mask, dive computer, and a swimsuit. If your checked bag is delayed, you can still dive.
- ▶ Your certification card (C-card) and logbook — dive operators will ask for both. HPS can print a replacement if yours is missing.
- ▶ Reef-safe sunscreen, a hat, sunglasses, and a light rain layer. Tropical sun is stronger than Colorado sun.
- ▶ A save-a-dive kit (spare mask strap, o-rings, defog). Ask HPS — we stock these.
- ▶ Leave heavy dive gear decisions to us: we'll tell you what to bring versus rent, trip by trip.

6. The Airport, Step by Step (read this if you've never flown internationally)

- ▶ Arrive at Denver International Airport (DEN) at least 3 hours before an international departure. Bring your passport — not just your driver's license.
- ▶ Check your bags at your airline's counter, then go through TSA security. Laptops and liquids come out of your bag; shoes and belts may too.
- ▶ Find your gate on the screens, then ride the train to your concourse. Watch the boarding-time and gate on your boarding pass.
- ▶ If you have a connection, follow signs to your next gate. On the way home, your FIRST stop on U.S. soil is where you clear Customs & Immigration — have your passport and customs form ready, collect your checked bag, then re-drop it for the final leg to Denver.
- ▶ Stick with your HPS group. There is comfort — and safety — in numbers.

02 BONAIRE · DUTCH CARIBBEAN
May 1–9, 2027

Bonaire Shore-Diving Getaway

Your own truck, tanks in the back, and 60+ dive sites you can drive to.

Bonaire is the freedom trip. The island's entire western coast is a protected marine park, and the diving is famous for one reason: you don't wait for a boat. You get a pickup truck, load it with tanks, and drive to any of 60-plus shore-dive sites marked by painted yellow stones.

You'll stay at Buddy Dive Resort, a PADI 5-Star operation with a 24/7 house reef you can dive straight off the dock — day or night, as often as you like. For certified divers, nitrox is free.

The U.S. dollar is the official currency here, so there's no money math to learn. It's a spectacularly easy place to build confidence: calm, clear, warm water and total control over your own dive day.

Reserve your spot: **970-493-8562** · **High Plains Scuba Center**

Trip Introduction

Buddy Dive Resort in Bonaire offers a relaxed atmosphere with stunning sunsets and clear turquoise waters, ideal for divers and leisure travelers alike. Guests can enjoy 24/7 diving access from the lively house reef and explore over 60 dive sites with a rental truck included in the Drive & Dive Package.

The resort features spacious one- to three-bedroom apartments, a full-service dive center, two pools, and oceanfront dining at Blennies Restaurant. Each apartment includes fully equipped kitchens and comfortable living spaces, while the PADI 5 Star Dive Center caters to divers of all levels, providing unlimited shore diving and advanced technical courses.

On an island known to be a diver's and snorkeler's paradise, Buddy Dive maximizes all that Bonaire has to offer!

Accommodation & Destination Experience

Buddy Dive Resort Bonaire Getaway

Experience Bonaire and Buddy Dive Resort. Buddy's is an unhurried, unspoiled, and natural paradise that offers spectacular sunsets, gentle breezes, and crystal-clear turquoise waters. Buddy's is a resort where you can dive twenty-four/seven, take part in a multitude of activities, or just sit back, relax, and enjoy the atmosphere.

Buddy Dive is known for its casual atmosphere, personable staff, spacious accommodations and a dive operation that has it all: comfortable boats, complete rental, retail center, exceptional staff, and a unique "Drive Thru" with air/nitrox fill station. No matter which apartment you relax in, you're never further than a giant stride away from their popular and lively house reef which is perfect for diving and snorkeling, day and night.

Climb into the rental truck you receive automatically with your Drive & Dive Package, and take advantage of the 60 dive sites, accessible from the shoreline of Bonaire or tour the island with a guide on one of many excursions available to you through the Activity Center.

Divers, snorkelers, adventurers, and leisure travelers will feel equally at home at Buddy Dive. You will want to save plenty of time to relax in a hammock, lounge by one of our three pools, or simply catch some rays or saunter on down to the pool bar for a cocktail before sampling some of the local specialties.

Enjoy true oceanfront dining in the Lions Den Restaurant or one of the beach theme nights. The resort is complete with four modern buildings housing spacious one-, two-, and three-bedroom apartments, a full-service dive center, an activity desk, three swimming pools, a restaurant, a pool bar, vehicle rentals, and a Nitrox fill station. Built with active people in mind, Buddy's knows exactly what is needed to make guests comfortable during their busy day of diving and exploring, and after. That's why every apartment comes complete with:

Daily Itinerary

DAY 1: KRALENDIJK

SAT. 1 MAY 2027

Meet with your transfer as you exit the airport for a quick ride to Buddy Dive Resort.

Check in the hotel and if there is time, complete your dive orientation, required by the government as part of the park rules. Once completed, 24/7 unlimited diving begins!

EXPERT TIPS

We highly recommend you are Nitrox certified to maximize your bottom time.

INCLUDED

Airport transfers

EXCLUDED

marine park fee per diver is not included and is payable online

tourist tax is not included and must be paid online or upon arrival

DAYS 2 - 8: KRALENDIJK

SUN. 2 MAY 2027 - SAT. 8 MAY 2027

Spend the next 7 days truly doing as you please.

You have 6 boat dives included in your package diving with the group, which will be about the only thing where you need to be at a certain place at a certain time.

Divers often call Bonaire the island of diving freedom, because the majority of its more than 60 sites are accessible from shore and you can dive wherever and whenever the mood strikes. But we also love the freedom of being able to dive your own profile and for as long or short as you please.

Buddy's house reef is an easy dive teeming with life. It also makes a great site to practice photography or diving skills, visit the coral nursery or dip in for a quick fluorescent night dive.

Towards the end of the week around the New Moon on May 7, if Mother Nature allows, an early night dive is a must to see the incredible Ostracods. We will speak with the experts at the dive center to see if conditions are right as timing must be perfect. There is a surcharge for this special dive, but it is an experience not to be missed!

Bonaire also boasts excellent snorkeling thanks to its shallow reefs and endless visibility. Topside, the island offers a variety of activities, primarily nature-based including kayaking, hiking or windsurfing.

You can take the truck to visit to the Donkey and/or Flamingo sanctuary or meander around the colorful capital where an array of fabulous restaurants await.

Bonaire invites you to do island time your way!

EXPERT TIPS

DAY 9: END OF ITINERARY

SUN. 9 MAY 2027

Unfortunately, it's time to bid farewell to Bonaire.

The team will transfer you to the airport to begin your journey home. But take comfort - divers return to Bonaire time and time again, and we bet you will be one of them!

INCLUDED

Daily American & European-style breakfast buffet

Airport transfers

EXCLUDED

marine park fee per diver is not included and is payable online

tourist tax is not included and must be paid online or upon arrival

Lunch and Dinner

Included / Not Included

Included

- Accommodation for 8 nights
- Rental vehicle per unit (manual pick-up truck) for 8 days with basic insurance included.

- Daily American & European-style breakfast buffet
- Airport transfers
- All hotel taxes
- 6 boat dives
- 7 days of unlimited air fills for 24/7 shore diving
- Free unlimited nitrox for Nitrox-certified divers
- Please note:
- Studios and 1-bedroom units come with a single cab truck
- 2-bedroom units come with a double cab truck

Not Included

- marine park fee per diver is not included and is payable online
- tourist tax is not included and must be paid online or upon arrival
- Lunch and Dinner
- Drinks

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). There's no nonstop, so you'll connect once — typically through Atlanta, Houston, Miami, or New York on Delta, United, American, or JetBlue.
2. Fly the connecting leg to Bonaire's Flamingo International Airport (BON). Total travel is around 8–9 hours.
3. Clear Bonaire immigration and grab your bags at the small, easy-to-navigate airport.
4. Pick up the group rental trucks and transfer to Buddy Dive Resort — HPS coordinates the whole handoff.

Coming Home

1. Return your rental truck and check in at Flamingo (BON).
2. Fly to your U.S. connection city.
3. Clear U.S. Customs & Immigration at that first U.S. airport — bags off the belt, customs form in hand, then re-check for the last leg.
4. Fly home to Denver (DEN).

Trip Essentials

Fly into: Flamingo International Airport (BON)

Currency: U.S. Dollar (USD) — official currency, no exchange needed

Language: Dutch & Papiamentu; English widely spoken

Good to know: There's a marine-park fee and a small tourist tax. No visa for U.S. citizens. It's summer year-round — pack light.

Pro tip: The house reef is open 24/7 — do a sunset dive, then a night dive. Bring a dive light.

Gear from High Plains Scuba

- 3mm wetsuit — warm shore diving all week
- Dive light for the 24/7 house reef and night dives
- Personal dive computer with nitrox mode (nitrox is free here)
- Sturdy dive boots — you'll walk in from rocky shore entries
- Spare mask strap & save-a-dive kit from HPS

Ask us about gear fitting, rentals, and nitrox certification before you fly.

Trip Introduction

Welcome to Cozumel

Cozumel is a stunning Caribbean island off Mexico's Yucatán Peninsula, known for its crystal-clear turquoise waters, white-sand beaches, and vibrant coral reefs. Visitors can relax under swaying palm trees or explore the world-famous Mesoamerican Reef, making it a top destination for snorkeling and scuba diving. With warm weather year-round and breathtaking coastal views, Cozumel offers the perfect tropical escape.

Beyond its natural beauty, Cozumel is rich in culture and adventure. Travelers can explore ancient Mayan ruins like San Gervasio, stroll through the lively town of San Miguel, and enjoy local markets, cuisine, and traditions. Outdoor enthusiasts will find plenty to do, from water sports and fishing to jungle excursions and eco-parks.

Whether you're seeking relaxation, cultural experiences, or thrilling activities, Cozumel combines it all with a laid-back island charm—making it an unforgettable getaway for every type of traveler.

03

COZUMEL, MEXICO · CARIBBEAN

June 19–26, 2027

Cozumel Drift-Diving Getaway

Fly, float, and let the current do the swimming along the world's second-largest reef.

Cozumel is where a lot of new divers fall in love with the sport. The island sits on the Mesoamerican Reef — the second-largest barrier reef on the planet — and its signature style is drift diving: you drop in, relax, and let a gentle current carry you past coral walls while the boat follows your bubbles.

You'll stay at an all-inclusive resort, so meals and downtime are handled. Between dives there's the town of San Miguel to explore, fresh Mexican food, and easy day-trip options to Mayan ruins on the mainland.

It's an easy flight, a short cultural leap, and endlessly rewarding underwater — turtles, eagle rays, and rainbows of fish are the norm, not the exception.

Accommodation & Destination Experience

Cozumel Getaway

Cozumel Hotel & Resort is a long-standing favorite for dive groups seeking a convenient, social, and dive-centric stay on one of the Caribbean's most iconic underwater destinations. Located just minutes from Cozumel's world-famous reef system, this all-inclusive beachfront resort offers an easy, stress-free base for divers who want quick access to the water, comfortable accommodations, and a lively group-friendly atmosphere.

At the heart of the experience is its partnership with an on-site professional dive operation, making it simple for groups to transition seamlessly from breakfast to boat departure and straight into some of the most celebrated drift diving in the world. Cozumel's reefs - known for their dramatic walls, healthy coral formations, and strong marine biodiversity - are just a short boat ride away, allowing divers to maximize time underwater with minimal travel time.

The resort itself is designed for comfort and convenience, with spacious rooms and suites, an expansive pool area, and direct beach access that creates an easy flow between diving, relaxation, and social time. With everything located in one place, it works especially well for group trips where simplicity and cohesion matter.

Between dives, guests can unwind at the large pool, enjoy casual oceanfront dining, or relax with a drink at one of the resort's bars while sharing stories from the day's dives. The atmosphere is casual and social, making it easy for dive groups to connect and enjoy time together both in and out of the water.

Cozumel Hotel & Resort is a proven and practical choice for divers of all experience levels - offering reliable dive logistics, strong value, and access to one of the most famous reef systems in the world. It's an ideal fit for groups looking for easy planning, consistent diving conditions, and a destination that delivers both adventure and relaxation in equal measure.

Daily Itinerary

DAY 1: COZUMEL

SAT. 19 JUN 2027

Welcome to Cozumel!

After checking in at the hotel, divers have the option of a welcome shore dive to check weights and equipment.

Then get settled in for an epic week ahead

INCLUDED

Accommodations

All meals, snacks, and drinks including domestic alcohol

Hotel taxes

The diver rate also includes:

Welcome Tank for buoyancy/equipment check shore dive on arrival date

DAYS 2 - 6: COZUMEL

SUN. 20 JUN 2027 - THU. 24 JUN 2027

For the next 5 days, divers will enjoy 2-tank morning boat dives in Cozumel's vibrant marine park.

Non-divers can enjoy the resort's amenities and onsite activity program around Cozumel's largest pool or explore the town of San Miguel, a quick walk from the resort.

Looking for more adventure? Cozumel has lots to offer including horseback riding, ATV tours, Tequila tasting, Mayan Chocolate Tour, Watersports, Cooking classes and so much more.

INCLUDED

Accommodations

All meals, snacks, and drinks including domestic alcohol

Hotel taxes

The diver rate also includes:

5 days x 2-tank morning boat dives

DAY 7: COZUMEL

FRI. 25 JUN 2027

Our last full day at leisure.

This would be a great opportunity to explore the island and enjoy a range of activities Cozumel has to offer. Or simply relax and do nothing at all!

INCLUDED

7 nights of all-inclusive accommodations

All meals, snacks, and drinks including domestic alcohol

Hotel taxes

EXCLUDED

Marine Park fees are currently per diver per day

Cozumel's EcoTax room fees (approx. per room per night)

DAY 8: DEPART FOR HOME

SAT. 26 JUN 2027

Unfortunately, the week has come to an end, and it is time to begin the journey home.

But not all is lost - you can join us for another HPS Cozumel adventure sometime soon!

INCLUDED

Marine Park fees are currently per diver per day

Cozumel's EcoTax room fees (approx. per room per night)

Transfers

970-493-8562

Through the years, Cozumel has been known as one of the favorite Caribbean Island to tie the knot by offering natural spots to make of your wedding an everlasting memory.

Also, being Cozumel Hotel & Resort a Gay-Friendly hotel, legal egalitarian weddings are available.

Diving

Drift diving in Cozumel has become the favorite of divers around the world. No matter the season of the year, divers will always enjoy the crystal-clear waters of the Mexican Caribbean.

For beginners, intermediate, or advance, we have from single to combo dives. Don't miss one of the most rewarding experiences in life.

Hotel Cozumel & Resort was recognized by "Check-Safety-First" (Hotels that care about your health) as one of the three hotels in Cozumel that has proved its capability to prevent food borne illness. Hotel Cozumel & Resort has been subject to monthly rigorous inspections for food safety and hygiene. Other aspects such as fire safety, hurricane preparedness, ethical operation, sustainable tourism and others were also inspected. Hotel Cozumel & Resort proudly holds the "Cristal" certification by Check-Safety-First.

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). Connect once — usually through Dallas or Houston on American or United — straight to Cozumel (CZM).
2. (Alternative some groups use: fly into Cancun (CUN), then a short ferry across to Cozumel.)
3. Land at Cozumel (CZM) and clear Mexican immigration; keep the entry form they give you.
4. Resort transfer meets the HPS group for the short ride to your all-inclusive.

Coming Home

1. Check in at Cozumel (CZM).
2. Fly to your U.S. connection city (Dallas or Houston).
3. Clear U.S. Customs & Immigration there — collect bags, declare, re-check.
4. Fly home to Denver (DEN).

Trip Essentials

Fly into: Cozumel International Airport (CZM)

Currency: Mexican Peso (MXN). USD accepted, but pesos get you ~10–15% better value.

Language: Spanish; English common in dive/tourist areas
Good to know: A marine-park fee and small eco-tax apply — HPS collects these ahead of time. No visa for U.S. citizens.

Pro tip: Use a bank ATM for pesos and decline the machine's currency conversion. Carry small bills for tips.

Gear from High Plains Scuba

- 3mm wetsuit — warm, comfortable drift diving
- Personal dive computer — tracks your multi-dive days
- Surface marker buoy (SMB) — standard for drift dives so the boat sees you
- Reef-safe sunscreen (required to protect the reef)
- Mask, defog & save-a-dive kit from HPS

Ask us about gear fitting, rentals, and nitrox certification before you fly.

HIGH PLAINS SCUBA CENTER
Fort Collins, Colorado

ST. EUSTATIUS & SABA · DUTCH CARIBBEAN

July 17–27, 2027

Statia & Saba Combo

Two tiny volcanic islands, zero crowds, and some of the healthiest reefs left in the Caribbean.

This is the trip for the diver who wants to go where almost no one else does. Statia (St. Eustatius) and Saba are two small, volcanic Dutch-Caribbean islands with no big resorts, no cruise crowds — just pristine reefs, dramatic underwater terrain, and marine parks that have been protected for decades.

On Statia you'll dive historic wrecks and lava-formed reefs with Scubaqua, staying at Golden Rock Resort beneath the dormant Quill volcano. Then you'll ferry to Saba to dive its legendary offshore pinnacles and seamounts — towers of coral rising from the deep, patrolled by sharks — while staying at Juliana's Hotel below Mt. Scenery.

Free nitrox at both centers keeps you down longer. This is a bucket-list combo that rewards divers ready for something wild and uncrowded.

Trip Introduction

Escape with us on an epic adventure combining two of the Dutch Caribbean's lesser-known gems!

St. Eustatius "Statia":

St. Eustatius, once known as the Golden Rock due to its incredible history has been a national park for over 30 years above and below the water. Unaffected by mass tourism St. Eustatius is not your average Caribbean island, imagine the Caribbean about 25 or 30 years ago and you get close. The reefs surrounding St. Eustatius are flourishing in a protected marine park.

Underwater you will experience what much of the Caribbean must have looked like many years ago. The eye-catching volcano "the Quill" dominates the island with its impressive crater and is responsible for the huge amount of lava flows and blocks under the surface. These old labyrinths of lava are now fully overgrown with coral and sponges. Combine these reefs with numerous of historical dive sites and more recent sunk wrecks and you got yourself a diver's paradise!

Saba:

Accommodation & Destination Experience

Statia and Saba Combo

For divers looking to experience the Caribbean the way it used to be - uncrowded, untouched, and full of discovery - Golden Rock Resort offers a truly unique and immersive escape. Set across 40 acres of lush, oceanfront landscape on the hidden island of St. Eustatius, this contemporary boutique resort combines upscale comfort with raw natural beauty, creating the perfect base for both adventure and relaxation.

Perched beneath the dramatic slopes of The Quill, Golden Rock delivers an authentic island experience with a refined edge. Modern ocean-view rooms and suites are thoughtfully designed for comfort after a full day of diving, while vibrant tropical gardens, panoramic viewpoints, and open-air spaces create an atmosphere that feels both elevated and effortlessly laid-back.

But what truly sets this destination apart is what lies beneath the surface. Widely regarded as one of the Caribbean's best-kept diving secrets, Statia offers access to over 36 pristine dive sites within a protected marine park. Expect an extraordinary variety of underwater landscapes - from coral-covered lava flows and dramatic walls to historical wrecks and macro-rich reefs - all thriving in healthy, uncrowded conditions. With short boat rides (typically just 5–20 minutes), you can maximize time in the water and enjoy a relaxed, efficient dive schedule.

Diving operations are tailored for quality over quantity, with small group ratios and experienced guides ensuring a personalized experience for divers of all levels. Whether it's exploring labyrinths of ancient volcanic rock now blanketed in coral, discovering wrecks steeped in history, or photographing rare macro life, every dive delivers something memorable - even for the most seasoned travelers.

Above the surface, Golden Rock offers the perfect balance for group travel. Spend afternoons unwinding by the pool, enjoying exceptional dining, or sharing dive stories over cocktails. For those looking to explore further, hike into the rainforest-filled crater of The Quill, sail along the island's untouched coastline, or simply soak in the peaceful rhythm of an island untouched by mass tourism.

Daily Itinerary

DAY 1: SINT EUSTATIUS

SAT. 17 JUL 2027

Arrive at the airport and meet your driver for transfers through the beautiful island to your resort. It's time to check in and enjoy your stay!

INCLUDED

Airport transfers

EXCLUDED

Meals unless otherwise specified

Drinks

Tips and personal expenses

DAYS 2 - 5: SINT EUSTATIUS

SUN. 18 JUL 2027 - WED. 21 JUL 2027

After breakfast, spend the next few days exploring the beautiful sites and all that await you underwater.

St. Eustatius' many different ecosystems means you are diving in a variety of environments. From pinnacles, walls, canyons, wrecks and reefs formed on ancient lava flows, no two dives are ever the same in Statia's marine park. Almost all of the 36 official sites are moored to save the reef from anchorage. Divers often love to drift from one site to the other to find all the true hidden treasures.

If you aren't diving, perhaps snorkel the remnants of 400-year-old warehouses back when the island was at the height of trade.

Or take hike up the extinct volcano - the Quill and descend into its lush crater filled with a lush forest. Located in the national park, during your hike you will encounter different vegetation zones, as well as possibly spot some endangered animals like the Lesser Antillean Iguana, native to only a few Caribbean islands.

St. Eustatius is steeped in history and as you walk around, you find evidence of its rich past everywhere. The ruins of the oceanfront warehouses are all over, while the fort, which is of great historical significance looks like it was built just yesterday. As you explore, it is not unusual to find pieces of pottery and clay pipes - just make sure you don't trip over an old cannon! History buffs can immerse themselves further with a guided tour or a visit to the museum.

Or simply relax and do nothing at all!

EXPERT TIPS

Be sure to have your Nitrox certification before you travel or you will miss some of Statia's best diving!

INCLUDED

DAY 6: SABA

THU. 22 JUL 2027

After breakfast, we transfer to the ferry dock and bid farewell to Statia.

A quick one-hour ferry ride and you will arrive on the breathtaking island of Saba.

The transfer is an experience it's self as you wind along "the road that couldn't be built" which provides incredible views.

INCLUDED

Breakfast

Transfers

EXCLUDED

Meals unless otherwise specified

Drinks

DAYS 7 - 10: SABA

FRI. 23 JUL 2027 - MON. 26 JUL 2027

For the next few days, settle into a relaxed routine as you begin your day taking in the glorious views while you enjoy breakfast at Tropics Cafe onsite.

Dive or snorkel on one of over 30 moored sites in the marine park. Saba's volcanic origins have blessed her waters with spectacular formations and structural diversity. Enjoy year-round diving with seasonal differences in water temperature and surface conditions.

From shallow patch reefs to deepwater seamounts, Saba offers interesting diving at different depth and for every diver's experience and comfort level.

Depending on experience and conditions, more often than not you will likely experience some of Saba's more dramatic underwater features: Not far offshore, Saba's famous pinnacles and seamounts rise dramatically from the depths to within 85 feet of the surface. The structures themselves are not to be missed! The most unique being The Needle, just off in the blue from Third Encounter. It's common to encounter schools of fish, jacks, groupers or even some of Saba's robust shark population at the pinnacles. Caribbean Reef and Nurse sharks are the most common to see but there are a few sightings each year of Hammerheads, Bull and Tiger sharks. Although these dive sites are virtually bottomless, they can be safely enjoyed well within the limits of recreational diving. Nitrox is a must when doing these dives!

Man O' War Shoals, Diamond Rock and Green Island are also classified as pinnacles but have sandy bottoms at between 70 and 80 feet. Schools of blue tangs, big eye jacks and barracuda frequent these areas. The dark volcanic sand around these sites is also home to many interesting critters including flying gurnards, batfish, industrious sand tile fish and jawfish.

When you are not on or in the water, consider a wander down "Main Street" in Windwardside to visit an art studio or to do a little shopping in one of the curio shops. There are also wine tastings, gin & tonic tastings, and cooking classes available in one of Saba's many fabulous restaurants.

Outdoor enthusiast and nature lovers are spoiled for choice when it comes to hiking. Most of Saba's hiking trails are the original footpaths used for hundreds of years before The Road was created. Imagine the life of the local islanders as you travel from one village to the next. Saba offers a variety of hiking and nature trails over diverse terrains from tide pools up to Saba's cloud forest: Mt. Scenery. The trails are continuously maintained by the Saba Conservation Foundation. All trails can be done on your own but are greatly enhanced with one of the park's guides.

Birders will appreciate scheduling a tour that takes you from sea to summit to encounter endemic bridled quail dove, brown trembler, grass quit, hummingbirds, and the largest population of red-billed tropicbirds on the planet.

INCLUDED

DAY 11: END OF ITINERARY

TUE. 27 JUL 2027

Sadly, our epic adventure has come to an end.

After breakfast, take in the views of the Unspoiled Queen one last time as you transfer to the airport to begin the journey home.

SCUBAQUA

Dive Center St. Eustatius

unspoiled caribbean diving

diving

‘Statia’s diving is regarded as among the best in the Caribbean’ *Lonely Planet*

Welcome to Scubaqua Dive center, let us take you out diving in St. Eustatius unexplored reefs, wrecks, pinnacles and walls. Our mission is to give you the best diving St. Eustatius has to offer. The water surrounding St. Eustatius is a protected marine park where marine life can enjoy them selves as much as we do. Where else in the world do you find eight underwater ecosystems and how many times where you escorted by turtles during your whole dive? The only thing you won’t encounter is other groups of divers.

We offer low guest-to-guide ratios, just the way we want to dive ourselves on our holidays. Scubaqua offers dives for all levels and no matter which level of diving you have we always listen to your personal needs and do everything to give you the unforgettable experience.

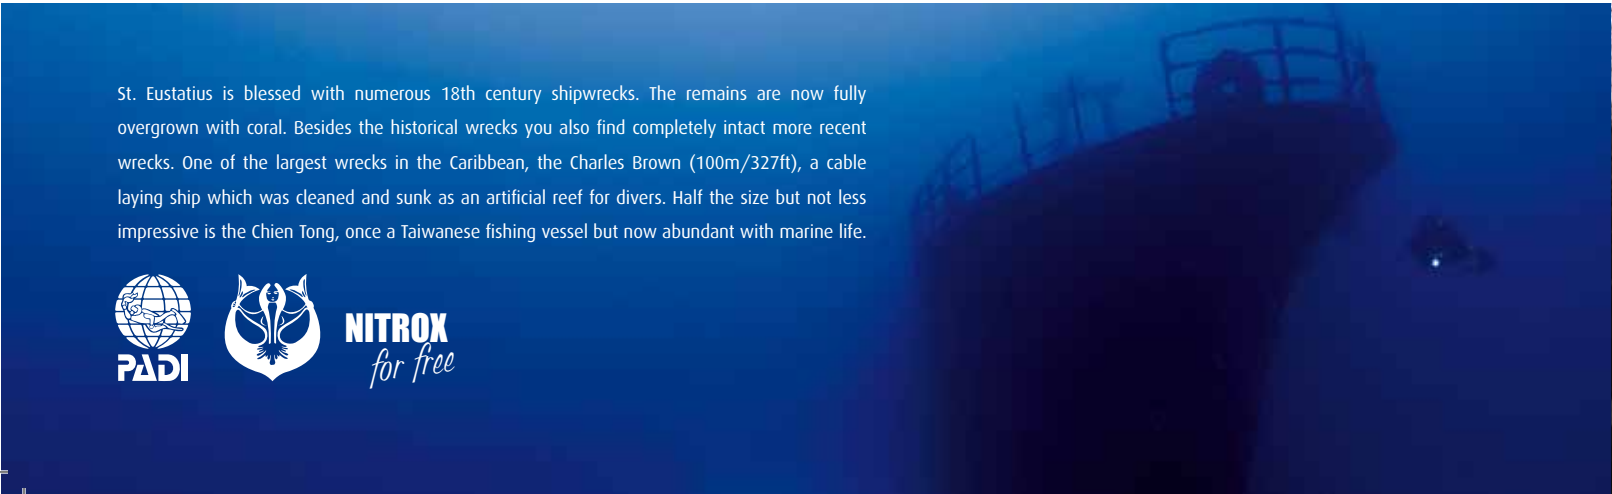

island

About St. Eustatius:

St. Eustatius (Statia) has a rich history, over 3000 ships visited St. Eustatius yearly between 1775 and 1800 and made it one of the busiest ports in the world. The 20.000 inhabitants in that time worked mainly in the warehouses near the coast and even now when you stroll along the coastline’s old warehouses it feels like you travelled back in time. You can even snorkel or dive along the old town walls, and if you are lucky you may even find a 18th century blue bead once used to pay slaves and the only artifact you are allowed to take from the island. Meanwhile the island has approximately 3000 inhabitants, there is no mass tourism, you won’t find casino’s, nightclubs and shopping malls.

What you do find is the original Caribbean atmosphere, friendly population and superb nature. Find out more about our beautiful island and accommodations on our website www.scubaqua.com.

St. Eustatius is blessed with numerous 18th century shipwrecks. The remains are now fully overgrown with coral. Besides the historical wrecks you also find completely intact more recent wrecks. One of the largest wrecks in the Caribbean, the Charles Brown (100m/327ft), a cable laying ship which was cleaned and sunk as an artificial reef for divers. Half the size but not less impressive is the Chien Tong, once a Taiwanese fishing vessel but now abundant with marine life.

HOUSE REDS

PINOT NOIR “ROPITEAU”

South of France, Burgundy

A rich, full-bodied aroma of vibrant red berries, featuring dominant notes of cherry and blackcurrant complemented by a hint of liquorice.

CABERNET SAUVIGNON “COLUMBIA CREST”

USA, Washington State

Intense flavors of black fruits like blackcurrant and blackberry, with a subtle hint of vanilla from the oak, harmoniously blending with rich notes of coffee and chocolate on the palate.

MERLOT “VERAMONTE”

Chile, Casablanca Valley

A rich, chocolatey Merlot with exotic hints of eucalyptus and tobacco juicy and full-bodied, this wine pairs beautifully with any type of red meat.

MALBEC “DOMAINE BOSQUET”

Argentina, Tupungato Valle | Organic

Aromas of blackberry, with hints of red and blackcurrant and a touch of plum. On the palate, ripe plum notes shine through, accompanied by soft, elegant tannins.

HOUSE WHITES

CHARDONNAY “ROPITEAU”

South of France, Burgundy

With a beautiful length on the palate, this wine is round, well-balanced medium to full-bodied, fresh citrus aromas and flavors emerge beautifully from the glass.

SAUVIGNON BLANC “DUSKY SOUNDS”

New Zealand, Malborough

On the nose, vibrant grapefruit and exotic fruit aromas. This wine offers excellent balance of acidity and minerality.

PINOT GRIGIO “CA’VESCOVO”

Northern Italy, Friuli

Crisp, refreshing, light-bodied with bright citrus aromas, such as grapefruit subtle hints of melon and pear, pairs beautifully with salads and seafood.

MOSCATO “CASTELLO DEL POGGIO”

Northwest Italy, Piedmont

Bright tones of orange blossoms, wildflowers and honey with notes of ripe peach and apricot a refreshing sweetness perfect for pairing with desserts.

ROSÉ

SAINT ROCH “LES VIGNES”

South of France, Cote de Provence

A refreshing rosé with intense minerality, complemented by vibrant fruity flavors aromas of fresh red berries, perfect pairing with light dishes and warm days.

By the Bottle

REDS

SAINT-EMILION “CHÂTEAU LA CHAPELLE”

France, Bordeaux | Organic

\$55

With a dark, dense color, this wine offers rich red and black fruit flavors accompanied by a wide aromatic palette that develops notes of prunes and spices;

CABERNET SAUVIGNON “DECOY”

USA, California

\$75

Rich and full-bodied, with sweet baking spice notes blending with blackberry and mocha the palate is silky, elegant and intense.

CHÂTEAUNEUF-DU-PAPE “CHÂTEAU MONT REDON”

France, Rhône Valley

\$90

Bold complex full-bodied, featuring vibrant notes of ripe red and black fruits balanced by earthy undertone. Smooth tannins and a long, elegant finish, pairs perfectly with hearty dishes.

WHITES

PETIT CHABLIS “DAME NATURE”

France, Chablis | Organic

\$55

A lively wine with aromas of white-fleshed fruits, offering a well-balanced and round profile smooth and excellent pairing for fish in sauce and white meats.

SANCERRE “LES BARONNES”

France, Henri Bourgeois Loire Valley

\$60

Crisp and fruity, presents aromas of lime, apple, and gunflint, balanced by ripe tropical yellow fruits perfect pairing with seafood and salads.

CHARDONNAY “DECOY”

USA, California

\$70

Vibrant flavors of ripe citrus, green apple, and pear, complemented by subtle notes of vanilla and toasted oak. Smooth texture enhanced by a touch of creamy richness, leading to a crisp, refreshing finish.

CHAMPAGNES & SPARKLING WINES

PROSECCO “ZONIN BRUT CUVÉE 1821”

Northern Italy, Veneto

\$40

Fresh and delicate, with aromas of white flowers beautifully blending with vibrant tropical fruit flavors a refreshing and elegant choice for any occasion.

PROSECCO “ZONIN BRUT CUVÉE 1821”

Northern Italy, Veneto | PICCOLO

\$10

Fresh and delicate, with aromas of white flowers beautifully blending with vibrant tropical fruit flavors. A refreshing and elegant choice for any occasion. Served in a single serving Piccolo bottle.

CHAMPAGNE “MOET & CHANDON IMPERIAL”

France, Épernay

\$100

Refined balance of fruitiness and floral notes, featuring aromas of ripe peach, citrus and apple smooth and well-rounded elegant palate with crisp refreshing finish that lingers gracefully. Perfect for celebrations or as a sophisticated pairing with seafood or light appetizers.

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). Connect through a U.S. hub (Miami or Atlanta) to St. Maarten (SXM).
2. At St. Maarten, board a Winair 20-seat propeller plane for the short, scenic hop to Statia's F.D. Roosevelt Airport (EUX) — about 16 minutes.
3. Settle in on Statia at Golden Rock Resort with the HPS group.
4. Mid-trip, take the ferry (or a short Winair flight) over to Saba and check in at Juliana's Hotel.

Coming Home

1. From Saba or Statia, fly Winair back to St. Maarten (SXM).
2. Fly SXM to your U.S. connection city.
3. Clear U.S. Customs & Immigration — bags, declaration, re-check.
4. Fly home to Denver (DEN).

Trip Essentials

Fly into: St. Maarten (SXM), then Winair to Statia (EUX); ferry to Saba

Currency: U.S. Dollar (USD)

Language: Dutch & English; English widely spoken

Good to know: ATMs are scarce and run dry — bring plenty of USD cash. A departure fee applies. Many small shops are cash-only.

Pro tip: Get nitrox-certified before this trip — free nitrox at both islands is a game-changer. Reconfirm the little Winair flights.

Gear from High Plains Scuba

- 3mm wetsuit (bring a hood/vest for deeper pinnacle dives)
- Nitrox-capable dive computer — free nitrox at both centers
- Surface marker buoy for offshore seamount dives
- Save-a-dive kit — supplies are limited on these tiny islands
- Dive light for exploring wrecks and ledges

Ask us about gear fitting, rentals, and nitrox certification before you fly.

05

KOMODO, INDONESIA · CORAL TRIANGLE

August 22 – September 2, 2027

Komodo Adventure

A luxury sailing liveaboard through the richest reefs on Earth — mantas, dragons, and up to four dives a day.

This is the grand adventure — the trip you'll be telling stories about for the rest of your life. You'll live aboard the Tiaré Cruise, a handcrafted Indonesian Phinisi sailing yacht (reclaimed teak, real cabins, even Starlink WiFi), cruising through Komodo National Park in the heart of the Coral Triangle, the most biodiverse ocean on the planet.

Days are built around diving — up to four dives daily — drifting with graceful manta rays, exploring coral gardens that look painted, and surfacing to see the islands where actual Komodo dragons roam. It's remote, it's immersive, and the crew takes care of everything.

Yes, it's far. But traveling as a group with HPS turns the long journey into part of the story — and no first-timer should think a trip this big is out of reach. We plan every leg with you.

KOMODO ADVENTURE, INDONESIA

August 22, 2027 - September 2, 2027

Travel Dates August 22, 2027 - September 2, 2027	Prepared For High Plains Scuba travelers
Format Customer-facing itinerary packet	Pricing Not included in this document

Trip Introduction

Komodo Diving - World-Class Adventure Beneath the Surface

Komodo National Park was declared a World Natural Heritage Site by UNESCO in 1991. The National Park includes the three larger islands of Komodo, Rinca and Padar, as well as numerous smaller islands.

The dive spots around Komodo offers unbelievable variety. One day you can admire rare critters creatures in the morning and in the afternoon drift along with giant mantas and schools of big-eye jacks. There are patch reefs, bommies (pinnacles), sheer walls, and shallow coral gardens to be explored. There are more than 1000 fish species, 260 species of corals, 70 different sponge species, 17 species of whales and dolphins and at least 2 different kinds of sea turtles living in the waters of Komodo National Park.

Alor & Maumere Diving – Indonesia’s Hidden Gems

Discover the unspoiled waters of East Indonesia, where two extraordinary destinations offer unforgettable underwater experiences.

Accommodation & Destination Experience

Komodo Adventure, Indonesia

Tiaré Cruise is a luxury liveaboard experience offering immersive journeys through the Indonesian archipelago aboard a traditional Phinisi sailing vessel. Combining elegance with authentic design, the vessel features spacious cabins, comfortable indoor and outdoor living areas, and handcrafted finishes using reclaimed teak, creating a warm and refined atmosphere. Guests can explore some of the world's most renowned dive locations, including remote and less-visited regions rich in marine biodiversity and cultural diversity. Catering to both divers and non-divers, Tiaré Cruise provides tailored experiences, from guided diving excursions to opportunities for relaxation and socialising on deck. With modern safety systems and dedicated facilities, including a specialised diving deck, it ensures comfort and security.

11 Nights

Full Board - Dinner, Bed, Breakfast and Lunch

Tea and Coffee Included

Boat

Daily Itinerary

DAY 1: TIARE CRUISE

SUN. 22 AUG 2027

Meet your guide at Labuan Bajo to transfer to your home for the next 11 nights.

Complete essential briefings and then get settled for an epic trip ahead

EXPERT TIPS

While Tiare does have a selection of alcohol onboard, guests are permitted to bring their own. Stop into a duty free shop in Bali or Jakarta before traveling to the islands if you want something specific.

INCLUDED

Local Transfers

Meals

Coffee, Tea, Water

EXCLUDED

DAYS 2 - 10: TIARE CRUISE

MON. 23 AUG 2027 - TUE. 31 AUG 2027

Spend the next 9 days floating from Komodo National Park's best sites to the lesser-known dive sites in Alor and surrounding areas. Expect epic and varied diving every day!

The dive spots around Komodo offer unbelievable variety. One day you can admire rare macro creatures in the morning ("critters") and in the afternoon drift along with giant mantas and schools of big-eye trevally jacks. There are patch reefs, bommies (pinnacles), sheer walls, and shallow coral gardens to be explored. There are more than 1000 fish species, 260 species of corals, 70 different sponge species, 17 species of whales and dolphins and at least 2 different kinds of sea turtles living in the waters of Komodo National Park.

Some days as the itinerary allows, a land excursion may be offered including the opportunity to see the amazing Komodo Dragons!

Enjoy sumptuous meals and excellent service between dives and activities. Bliss!

EXPERT TIPS

We recommend that you are Nitrox certified before the trip to maximize your bottom time - trust us - you will want to spend every minute you can!

INCLUDED

Local Transfers

Meals

DAY 11: TIARE CRUISE

WED. 1 SEP 2027

On your last full day, typically only one morning dive is possible before beginning the return to port.

The rest of the day can be spent at a relaxed pace, drying and later packing equipment or simply taking in the incredible scenery from Pindito's deck.

INCLUDED

Local Transfers

Meals

Coffee, Tea and water

EXCLUDED

Alcoholic Beverages

Nitrox

DAY 12: END OF ITINERARY

THU. 2 SEP 2027

Alas, the dreaded time has arrived. After breakfast, disembark and transfer to Maumere airport to begin your journey home or on to your next adventure.

This is always a sad time, but we are sure you will be carrying many incredible memories and tales to share with you.

INCLUDED

Local Transfers

Breakfast

EXCLUDED

Alcoholic Beverages

Nitrox

Reserve your spot with High Plains Scuba Center. Availability, itinerary details, inclusions, and destination requirements are subject to change until final travel documents are issued.

Itinerary source: <https://wetu.com/itinerary/Landing/57cdd399-ebb2-429b-8937-232794154f1a>

From the beginning we had only one idea:
to design a boat, which was elegant, sturdy, and tailored to the needs of
those who enjoy five-star service and luxury.

A boat less "attentive" to these concepts would require far less construction time and less money but we believe we have made the right choice about the future of Tiaré therefore creating a solid foundation for its long-term reliability.

All our choices are born from a careful assessment of the needs of our guest divers and non divers.
All indoor and outdoor living areas, decks, cabins are in antique teak salvaged from old Yoglo no longer used. Wonderful pieces of "real Indonesia" recovered to tell their story

Tiaré Destinations

Komodo, Raja Ampat, Triton Bay, Halmahera, Flores to Alor & Banda Sea, Forgotten Island

We work with only the best scuba divers to ensure that you spend a hassle-free holiday diving. Our goal is to meet your needs as a diver as well as a guest on our luxury cruise.

We aim to build lasting relationships with you and also allow you to bond with your diving buddies by providing the highest quality services.

We believe our cruise destinations speak for themselves, browse our most recent projects below.

Indonesia diving cruises are unforgettable. In our opinion, and after 20 years of diving experience, Indonesia is the world's best country for sea life and has more marine diversity than anywhere on earth. In the middle of the 'Coral Triangle' that extends from Australia to the Philippines and from Borneo to the South Pacific, this country is the ocean's heart, where, due to the Wallacea, the marine variety suggests when life in the sea began.

While sailing on Tiaré you can experience all the amazing fish and all marine life in these nutrient-rich seas, encounter big pelagics around the cool waters of Komodo, drift over colourful fields of coral in Raja Ampat, be astonished at the enormous school of fish in the Banda Islands and shoot the bizarre creatures around Moloku islands.

Raja Ampat cruises allow you to explore the most biodiverse waters on the planet, breath-taking panorama, diving pristine, remote and sometime unknown sites with all the comforts of a luxury liveaboard safari. Komodo is a prime destination; plenty of fish action, as well as the promise of mantas, sharks and more, plus of course a trekking to Komodo National Park with a ranger to see Komodo dragons or, better, to meet wild dragon along a Rinca shore (very impressive). Some trips will take you further afield to places like Cenderawasih Bay to see whalesharks or Triton Bay in West Papua, Forgotten Island in Banda sea for hammerhead, where boats are few and only genuine pleasure-seeking divers are to be found. Fantastic times are assured. Its not a question of only diving.... we like to meet local people too!

Its not a question of only diving.... we like to meet local people too!

You will meet new people from different cultures and classes not only onboard the Tiaré but we want you to experience some of the real Indonesia. Not easily accessible while staying in the more touristic areas.

Komodo National Park

Have you ever wondered what it would be like to be face to face with a dinosaur?

In Komodo your dream can come true. Komodo and Rinca are the only places where we can still find these Komodo Dragons in the wild. These small, brown scorched-earth islands fringed with sandy beaches are lapped by the clear waves of the national park, where you may even see the dragons patrolling the beach or viewing you from a high rocky outcrop.

Below the surface there will be many more wonderful creatures you may have never seen before in your life, like the hobbit worm or a rhynopia, a lady bug or skeleton shrimp.

Komodo is not only famous for its macro life, there is an abundance of fish and corals due to its mineral rich waters. Don't be surprised to see some beautiful pelagic, like sharks or mantas.

The water is not always warm, in fact it can be decidedly cool. The seas are not always calm, the currents can rage but the abundance of pelagics, more critters and interesting macro-action than you could imagine, the dazzling colours and diversity, make scuba diving here truly legendary.

Due to its geographic location, right in between the Indian ocean and the Flores sea in the North, we can expect stronger currents.

Dive Areas:

Castle Rock, Crystal Rock, Karang Makassar (Manta, Manta, Manta !!!!), Cannibal Rock, The Cauldron, The Shot Gun, Cannibal Rock ...more than 40 diving sites.

More info:

Water temperature: Water temperature: 19-28°C. Around Southern Komodo and Rinca Islands the water temperature drops drastically 24-21°C, a 5mm long suit is advised and hood and booties are strongly recommended.

Airport: Labuan Bajo. International flights reach Bali, then domestic flight to Labuan Bajo.

Weather: 27-32°C. Indonesia has two seasons: wet and dry. In most of Indonesia the wet season is from October to April and the dry from May to September. Nusa Tenggara's climate is relatively dry with a light rainy season from November to April.

Time zone: GMT +8.

The myth goes that each King reigns over one of four main islands, Misool, Salawati, Batanta, and Waigeo.

For the lucky few Raja Ampat is not one of the most frequently visited scuba diving areas but can surely be nowhere better on earth. The highest marine diversity on the planet, beautiful topside scenery and awesome underwater topography, makes Raja Ampat islands the closest place to heaven.

To stand on the bow of your liveaboard sailing towards lush islands, inhabited by people whose lives are so different, really gives you the unbelievable feeling of freedom.

There are a great variety of environments to cater for every diver's taste and level: from wall to slopes, caves and canyons, seamounts, much diving, wrecks.

The experience of diving the reef and the Raja Ampat islands surpasses the expectations of the most seasoned diver and underwater photographer, as well as the beginners. There are more than 1500 smaller islands covering over 50,000 sq km. To see it all in one trip is impossible as there are thousands of possible dive sites. Exploration of this immense wonderful area is still continuing.

More info:

Water temperature: 27-30°C. A 3mm shorty should be sufficient. If you feel the cold a 5mm shorty is advisable. Length of stay: Recommended 10-16 days cruise.

Airport: Sorong. International flight to Jakarta or Manado and then domestic flight to Sorong.

Time zone: GMT +9.

Raja Ampat

Explore the islands of the Four Kings, the literally translation of Raja Ampat.

Dive Areas:

Cape Kri. If you want to see large fish and to be enveloped by fish then roll in here, both desires will soon be satisfied. Groupers, sharks, snappers, Napoleon wrasse, barracuda, dogtooth tuna, trevallies. They are all here in numbers.

Cape Kri is a great place to spot wobbegongs, the curious carpet shark, but you should also admire gorgonian fans to look for pygmy seahorses grasping its branches.

Misol Island. Is located in the southern part of the Raja Ampat area and is home to an astonishingly colourful reef-scene. Soft corals dress up slopes, walls and canyons in a colourful palette. No big schools here but cuttlefish, pipefish, Indian lionfish, nudibranchs, soft corals and critters. Unmissable by night.

The Jef Fam Group. Is in the central region of Raja Ampat, so it's quite probable that you'll visit it whether we are joining a southern or northern cruise route. It's quite a large area with some impressive cabbage corals, sheet corals and mushroom corals. What makes Jef Fam special is its diversity of marine encounters and is the best place to find wobbegongs. You can also see huge giant clams, Spanish mackerel, great barracuda and manta rays.

Manta Ridge. Is one of the best dive spots in Raja Ampat to regularly see mantas in impressive numbers, it is a popular central site, thanks to a cleaning station which delivers some awesome manta ray action to the few lucky enough to be there. In current, you may have to hook into place before enjoying the show which includes some black mantas, bumphead, parrotfish and turtles all unconcerned by the audience.

Your memories of diving in Raja Ampat will stay with you forever.

Triton Bay

Explore the Enchanting Triton Bay.

Embark on an extraordinary diving adventure in the remote wonderland of Triton Bay, West Papua, Indonesia. This hidden gem is renowned for its untouched beauty, unparalleled marine biodiversity, and the thrill of swimming with majestic whale sharks. Triton Bay remains a true frontier destination, untouched by development and awaiting intrepid explorers like you.

Highlights:

Vibrant Soft Corals: Dive into a kaleidoscope of colors as Triton Bay's unique underwater habitats showcase an array of colorful soft corals. The vibrant marine life thrives in these nutrient-rich waters, providing a thrilling dive experience unlike any other.

Unveil Endemic Treasures: Encounter the captivating Nursalim flasher wrasse, graceful wobbegong and walking sharks, and other marine wonders in Triton Bay's living time capsule of biological diversity.

Diverse Underwater Landscapes: Explore breathtaking landscapes, from cascades of boulders to dramatic overhangs, caverns, and sheltered bays. The diverse underwater scenery mirrors the rich biodiversity thriving in this untouched marine sanctuary.

Dive Areas:

Triton's Playground: Swim with schools of barracuda and trevallies amid submerged pinnacles and steep walls adorned with large sea fans and sponges, ideal for underwater photography.

Namatota: Explore a unique dive site with submerged caves, where intriguing stalactites and sleeping reef sharks or resting turtles may be found.

Little Komodo: Experience rocky outcrops reminiscent of Komodo Island, observing schools of fusiliers, snappers, and occasionally graceful manta rays.

Diving with Whale Sharks in Triton Bay:

Swim alongside magnificent whale sharks drawn to local fishing platforms, or 'bagans,' feasting on anchovies and baitfish. Timing your visit during the peak fishing period, marked by the dark of the moon, increases chances of this extraordinary encounter. Curious dolphins may add to the underwater delight around the bagans.

Water Temperature: Enjoy warm waters year-round in Triton Bay, with temperatures ranging from 27°C to 30°C (80°F to 86°F), perfect for a tropical diving experience.

Prepare to be captivated by the untouched beauty and unparalleled marine encounters in Triton Bay. Whether you're a seasoned diver or an adventurous beginner, this enchanting frontier diving destination promises a journey of discovery and wonder that will leave a lasting impression.

This tropical paradise, nestled between the Philippines, Sulawesi, and New Guinea, boasts lush forests and serene volcanoes rising from calm seas. With pristine beaches and vibrant coral reefs, it offers exceptional conditions for scuba diving, snorkeling, and more.

Immerse yourself in the extraordinary and diverse world of Halmahera diving. Explore wrecks in Ternate, emerald waters in Tidore, and majestic walls in Bacan. Drift through the beauty of Patinti Strait and be enchanted by its stunning coral gardens.

Halmahera

Discover the Hidden Treasures of Halmahera.

Dive Areas:

Many of the dive sites are sea mounts with a rocky substratum, and plenty of large soft coral-covered boomies in all different colors. The fish life is intense: as a Halmahera signature, Blacktip sharks are seen patrolling around on most of the dives. Tunas, Spanish mackerel, giant trevallies, and other pelagic fish are part of the show. Napoleon wrasses, bump head parrotfish, groupers, schools of surgeonfish, and spadefish are also well represented. Other types of dive sites include critters / muck dives and beautiful fringing reefs.

Dive into the wonders of **Shark Mountain**, a submerged island with a thrilling depth of 100 feet. Witness various shark species patrolling its perimeter, alongside Napoleon wrasse and bustling shoals of barracuda.

Be enchanted by **Napo Siko**, hailed as the best wall dive. But fear not, there are many equally beautiful sites yet to be discovered. Spot Hawksbill and green turtles, alongside oceanic whitetips, and blacktip reef sharks. Immerse yourself in the harmonious dance of Napoleon wrasse and the intricate lives of invertebrates sheltering in enormous sponges.

As part of the **Coral Triangle**, Halmahera remains a hidden gem, teeming with rich marine life and extraordinary flora and fauna. Preserved from mass tourism, this remote haven is a favorite for sailors and divers seeking raw, untouched nature and secluded bays.

Experience the magic of **Halmahera** on a liveaboard adventure, where you can relish the beauty of unspoiled landscapes and colorful seascapes.

Join us now to uncover the secrets of one of the best diving destinations – before the world discovers its wonders!

Flores to Alor

The remote and unspoiled islands of Adunara, Lembata, Pantar and Alor are East of Flores.

They are probably one of Indonesia's best kept diving secrets. From incredible muck dive sites to impressive walls, crystal clear water to black volcanic sand sites, into stronger currents with thousands of reef fish. The Indonesian government has recently agreed to protect the area in order to secure a safe route for migrating cetaceans which pass through the straits on their migration to the feeding grounds in the deep waters of the Banda Sea.

More info:

Water temperature: 22-28°C. A 3mm shorty should be sufficient for Flores but it can cool down a lot in the Pantar strait; a 5mm shorty is advisable over a 3mm full suit.

Airport: Maumere (MAF). International flight to Jakarta or Bali and then domestic flight to Maumere.

Time zone: GMT +8.

Dive Areas:

Adunara Island. Eastern Flores has some famous dive sites such as Magic Log where ribbon eels and frogfish are common. The very rare weedy scorpionfish (Rhinochimaera) has been found here, as has the wonderpus octopus. There is still a lot of uncharted territory to discover in this region.

Lembata Island. Is also well worth diving exploration. Schools of fusiliers, angelfish and many different parrotfish species are common. Gorgonian seafans, host pygmy seahorses. Surrounding seas of Lamalera could also hold cetacean surprises.

Alor. Dive spot-names like "The Bullet" give some hints what diving in Alor is like: Big staff and currents, which are sometimes so strong that you have to pay attention. But do not worry; our divemasters know how to adjust the diving to the abilities of their groups. Don't forget we also provide the Enos transmitter for your localization in the unlikely case you miss the group!

As the direction and intensity of the currents changes quite often, you may have had a relaxing dive in the morning and find the same spot in the afternoon resembling a washing machine.

The strait between **Pantar** and Alor acts like a gigantic jet propelling waters from the Flores Sea in the north to the Savu Sea in the south. You will only find similar conditions around Komodo.

Forgotten Islands & Banda Sea

Is one of our more remote destinations where time seems to stand still.

The Forgotten islands are part of the Maluku Tenggara which is a 1.000 km chain of archipelagos running from East Timor to Western Papua. Undeveloped, distant from population centers and far off any beaten path, these "Forgotten Islands" have been largely isolated from the rest of the world. If you don't like to run into any other liveaboard cruise you could imagine yourself as the only person in the world on one of old trade ships. Then this is the route for you. We will be diving some unexplored reefs. But also visit an area where we have spotted **hammerhead** schooling. Ever seen an active volcano? We can guarantee you an explosion. We like to hang around for the sun to set, so we can see the red hot lava roll down the slope into the water.

We plan four expeditions each year in November/April. One itinerary starts in Maumere (Flores) and ends in Saumlaki, in the Tanimbar Islands, and another trip returns along the same or a similar route. Detailed itineraries in this area may be subject to change according to weather and diving conditions and other factors.

Dive Areas:

... we have secret dive spots

More info:

Water temperature: 22-28°C. A 3mm shorty should be sufficient for Ambon but the Banda Sea can cool down a lot a 5mm fullsuit is advisable.

Airport: Saumlaki (SXK) or Tanimbar . International flight to Jakarta or Bali and then domestic flight to Ambon, than Saumlaki. Maumere (MOF)

Time zone: GMT +8.

Private Charter

Feel the real spirit of Indonesia during our cruises.

Tiarè is a boat for people who like diving, but we want to make not only divers, but their non-diver travel mates happy too. If your partner doesn't want to dive, or doesn't dive, we realize you are always obliged to stay in a resort, both of you miss discovering pristine places.

We want you and your buddy on our boat – you dive and we take care of all those people who like spend time in another way: developing a suntan on the beach, snorkeling along the reef or whatever they wish.

Ikat weaving process at Sikka village – Flores

Dawera Island – Forgotten Island

Saumlaki – Forgotten Island

Aerborek – Raja Ampat

Bontoh village – Flores

What You can Expect on Board Tiaré

Welcome to Tiaré, a luxurious yet traditional Indonesian Phinisi that will take you on a journey of discovery to some of the most stunning diving spots in the world

Experience diving in the rich waters of the Indonesian archipelago and meet people from the many different cultures on the diverse Indonesian islands that you would never have the opportunity to see while staying in more tourist-heavy areas.

Tiaré offers a spectacular experience for divers as well as non-divers, with bright airy cabins, spacious bathrooms and a large front deck where you can socialize, eat under the stars or just relax in the Indonesian sunshine.

There is also a separate diving deck with hot water showers to warm up after a night dive.

All indoor and outdoor living areas, decks, and cabins are made with antique teak salvaged from old Joglos, which not only gives the feel of "real Indonesia", but has helped to reduce the use of Indonesia's disappearing rainforests.

Living area

Designed to be a space where you feel totally at home with an extra touch of luxury, comfortable couches and tables are the perfect place to socialize and catch up with your fellow divers. If you need to rest, have a nap, read a book or watch a film. A bar stocked with imported wines and a selection of other drinks is a welcome treat after a day of diving and a small cigar store is available for cigar connoisseurs.

As well as comfortable couches, the air-conditioned indoor lounge also has tables where dinner can be served as an alternative to the main deck depending on weather conditions and your preference.

There are also PCs where you can edit photos or videos and also an indoor camera room, which has plenty of room to store your lenses, charges, lights and even your spare cameras.

Cabins

More like a 5-star hotel than a boat, the six cabins on Tiaré are your home away from home designed with relaxation and the perfect sleep in mind. You'll enjoy soft linens and well thought out lighting and plug placement as well as spacious en-suite bathrooms, hot water showers and environmental friendly body wash and shampoo.

Two triple cabins are spacious enough to accommodate two adults and one child or three adults, with under-bed storage to ensure ease of movement around the cabin. The other four cabins, two twin and two double, accommodate two adults each for a maximum capacity of 14 guests.

With 14 guests on board Tiaré is comfortable and spacious enough for both a social atmosphere and space to relax and enjoy down time in the luxurious cabins.

Dive deck

We are passionate about diving and we want each diver to have his or her own personalized experience on board Tiaré. Every diver has their own area to set up their equipment. Highly qualified staff is on hand to help set up and transfer your equipment to the waiting tender dive boats and after a dive your wetsuits will be washed and dried for you.

Bow lounge

We are passionate about diving and we want each diver to have his or her own personalized experience on board Tiaré. Every diver has their own area to set up their equipment. Highly qualified staff is on hand to help set up and transfer your equipment to the waiting tender dive boats and after a dive your wetsuits will be washed and dried for you.

Special needs

Tiarè is not only a diving boat, she wants to welcome divers and non-divers with open arms and is there for all your needs. We have put our hearts into finding the best crew, services and safety equipment.

We cruise to areas like the Forgotten Islands and south Raja Ampat where it is very difficult to organize supplies, but we jump through any hoops necessary, as impeccable service is a must.

ASIA LUXURY CRUISE & DIVING Ltd

Unit G, 15/F, TAL Building, 49 Austin Road,
Kowloon
Hong Kong

info@tiarecruise.com
www.tiarecruise.com

Denver → Destination

1. Depart Denver (DEN). Fly west to a gateway (Los Angeles, San Francisco, or via Tokyo) and on to Bali — Denpasar (DPS), Indonesia. Plan on ~24–30 hours of travel and crossing many time zones.
2. Overnight in Bali to rest and reset (HPS builds this into the itinerary).
3. Take a 1-hour domestic flight from Bali (DPS) to Labuan Bajo (LBJ), the gateway to Komodo.
4. Board the Tiaré Cruise liveaboard in Labuan Bajo and set sail with the group.

Trip Essentials

Fly into: Bali – Denpasar (DPS), then Labuan Bajo (LBJ)
Currency: Indonesian Rupiah (IDR)
Language: Indonesian; English on the boat and in tourism
Good to know: U.S. citizens get a Visa on Arrival for a small fee. National-park & port fees apply. Water is cooler here (19–28°C).
Pro tip: Draw millions of rupiah at a bank ATM in Bali before flying to Labuan Bajo — there are no ATMs in the park. Bring clean, crisp USD as backup (worn bills get rejected).

Coming Home

1. The cruise ends near Maumere (MOF); fly Maumere back to Bali (DPS).
2. Fly Bali back across the Pacific to your U.S. gateway city.
3. Clear U.S. Customs & Immigration at your first U.S. airport — bags, declaration, re-check. (Note: you gain time coming home crossing the date line.)
4. Fly home to Denver (DEN).

Gear from High Plains Scuba

- 5mm wetsuit + hood + booties — water is cooler than the Caribbean
- Nitrox-capable dive computer — up to 4 dives a day
- Reef hook — for holding position in current at manta cleaning stations
- SMB + a personal locator (Nautilus Lifeline) for open-water drifts
- Save-a-dive kit and a pointer — you're far from any dive shop

Ask us about gear fitting, rentals, and nitrox certification before you fly.

HIGH PLAINS SCUBA CENTER
Fort Collins, Colorado

SOCORRO 2028

March 13, 2028 - March 21, 2028

Travel Dates March 13, 2028 - March 21, 2028	Prepared For High Plains Scuba travelers
Format Customer-facing itinerary packet	Pricing Not included in this document

Trip Introduction

Amazing diving is an understatement. Socorro is famous for its friendly giants, the manta rays. This offshore archipelago, national park and UNESCO World Heritage Site is also home to 11 species of sharks including whale sharks and schooling hammerheads, super friendly dolphins and dense schools of fish. It's a must-do experience for any diver.

Socorro is always stunning, raw, and primal, offering fantastic diving experiences known for the super-friendly and interactive giant mantas. With 12 different species of sharks and playful bottlenose dolphins trying to outdo the mantas to see who can be the most playful with scuba divers.

Despite being only 235 nautical miles from Cabo, it feels like being deep in the Pacific to a remote and unvisited paradise. You almost expect to see Game of Thrones dragons soaring out from behind the active volcano on Socorro. The archipelago is a UNESCO World Heritage Site and a tightly guarded national park, accessible only to a limited number of permit holders.

06

SOCORRO (REVILLAGIGEDO), MEXICO · PACIFIC

March 13–21, 2028

Socorro Islands Expedition

The Mexican Galapagos — giant mantas, schooling hammerheads, and whale sharks in the wide-open blue.

Socorro is big-animal diving at its most jaw-dropping. Part of the remote Revillagigedo Archipelago — a UNESCO World Heritage Site nicknamed the “Mexican Galapagos” — it sits a full day's sail off Baja in open Pacific water. You'll live aboard the Nautilus Belle Amie, a 5-star liveaboard, and dive volcanic pinnacles that act like magnets for giant ocean life.

This is where you come eye-to-eye with curious oceanic manta rays with wingspans of up to 20 feet, watch schooling hammerheads, and — in season — encounter whale sharks and dolphins. Sites like The Boiler and Roca Partida are legendary among divers worldwide.

Because it's advanced, open-water, big-animal diving, HPS makes sure you're ready and properly insured. The payoff is a trip that even seasoned divers rank among the best of their lives.

Accommodation & Destination Experience

Socorro 2028

Nautilus Belle Amie is a luxury five-star liveaboard designed to deliver an unforgettable dive experience in some of the most thrilling waters on the planet. Often described as a floating boutique hotel, this spacious and well-appointed vessel combines comfort, style, and adventure as it explores the legendary dive destinations of Socorro and Guadalupe, Mexico. Known for its focus on big animal encounters, Belle Amie specializes in shark cage diving with great whites as well as exhilarating open-water dives featuring giant manta rays, dolphins, whale sharks, and a variety of pelagic species.

Onboard, guests are welcomed into a relaxed yet upscale environment where every detail is designed to enhance the experience both above and below the surface. Accommodations are modern and comfortable, featuring air-conditioning, en-suite bathrooms, and thoughtful amenities that create a true home-away-from-home feel after a full day of diving. The spacious indoor lounge offers a comfortable place to unwind, complete with a bar and large plasma TV, while the expansive sun deck provides the perfect setting to take in the surrounding ocean views.

Between dives, guests can relax in the Jacuzzi, stretch out on sun loungers, or enjoy a cocktail while swapping stories from the day's encounters. The atmosphere onboard strikes the perfect balance between adventure and relaxation, making it ideal for divers looking to pair bucket-list diving with a high level of comfort. With expert crew, seamless operations, and a focus on delivering extraordinary marine encounters, Nautilus Belle Amie offers an immersive experience that goes far beyond a typical liveaboard trip - it's a true expedition into some of the ocean's most awe-inspiring environments.

Scuba Diving, Snorkeling

Daily Itinerary

DAY 1: NAUTILUS BELLE AMIE

MON. 13 MAR 2028

Check in at SeeCreatures in the heart of the downtown restaurant and bar district of Cabo San Lucas for an 8pm boarding.

If you have time, you are welcome to arrive earlier for a complimentary photo and video workshop.

INCLUDED

All meals and snacks aboard

Non-alcoholic beverages

Up to 4 dives a day with tanks and weights

EXCLUDED

Roundtrip airport transfers to/from meeting spot

Nitrox: per diver for the week

DAY 2: NAUTILUS BELLE AMIE

TUE. 14 MAR 2028

Traveling and relaxing at sea. It's a one day run out to the Socorro Islands. Cocktail hour. Sunsets. Arrive at San Benedicto Island by evening.

INCLUDED

All meals and snacks aboard

Non-alcoholic beverages

Up to 4 dives a day with tanks and weights

EXCLUDED

Nitrox: per diver for the week

Marine park fee: per day per person

Port fee: per person (cash only, paid aboard)

DAYS 3 - 7: NAUTILUS BELLE AMIE

WED. 15 MAR 2028 - SUN. 19 MAR 2028

Over five full dive days, you will be able to experience some of our favorite sites such as El Canyon, the Boiler, Red Rocks, Roca Partida, Cabo Pearce, Punta Tosca and Roca Oneal.

The crew will do their best to provide 4 dives a day subject to other dive boats being onsite, weather and only 3 dives on the day of mandatory inspection by the Mexican navy.

Expect to see the friendliest giant mantas in the world, bottlenose dolphins, up to 12 species of sharks and loads of fish!

Between diving there will also be other activities to keep you busy such as kayaking and paddle boarding. Or simply relax in the hot tub.

INCLUDED

All meals and snacks aboard

Non-alcoholic beverages

Up to 4 dives a day with tanks and weights

EXCLUDED

DAY 8: NAUTILUS BELLE AMIE

MON. 20 MAR 2028

Early morning voyage back to Cabo San Lucas. Great time to look back on all your photos and videos, connect with new friends or simply relax during the journey back.

INCLUDED

All meals and snacks aboard

Non-alcoholic beverages

Up to 4 dives a day with tanks and weights

DAY 9: END OF ITINERARY

TUE. 21 MAR 2028

Sadly, the thrills have come to an end. After breakfast disembark at 8:30am at the marina in Cabo to begin your journey home or on to the next part of your adventure.

INCLUDED

All meals and snacks aboard

Non-alcoholic beverages

Up to 4 dives a day with tanks and weights

EXCLUDED

Roundtrip airport transfers

Nitrox: per diver for the week

Marine park fee: per day per person

Included / Not Included

Included

- 8 nights accommodations
- All meals and snacks aboard
- Non-alcoholic beverages
- Up to 4 dives a day with tanks and weights

Not Included

- Roundtrip airport transfers to/from meeting spot
- Nitrox: per diver for the week
- Marine park fee: per day per person
- Port fee: per person (cash only, paid aboard)
- Mandatory medical and evacuation insurance
- Flights
- 5% tax

- Swim with whale sharks (*Dec - Jan*)
- Whale watching
- Guided overlanding
- Surf lesson Todos Santos

Arriving in Cabo

If you are arriving by airline, you will be landing at SJD international airport which is a 45 minute drive from our SeeCreatures base in Cabo San Lucas.

The flight attendants should give you a form to fill out if you are on an international flight. You will get a customs declaration and it's important to fill this out accurately.

You might be able to disembark via a jetway or sometimes by portable staircase and then walking across the airport ramp. Either way, if you are on an international flight you will end up going down a staircase into the international arrivals hall to clear immigration. Then on to the baggage hall to collect your luggage before clearing customs. The customs officer will ask you to press a button and you'll get either a green or red light. Green light means it's margarita time. Red light means you will have to open your suitcase for a customs inspection before you can enjoy your margarita. We highly recommend that after leaving customs, you walk straight through the next area past all the nice people trying to offer their assistance and keep going. They are all time share salespeople and the offer of a free sunset cruise and drinks won't seem so cheap after you have been talked into buying a time share. Your transfer company should have a representative waiting outside the arrivals hall with the name of their company on a sign board.

For our guests arriving on a domestic flight, you have it much easier. You will arrive at the old terminal building. Disembark. Collect your bags. Meet your transfer outside!

Checking-In

SeeCreatures - Cabo San Lucas

Calle Miguel Hidalgo #10, Centro CSL. C.P. 23450, Cabo San Lucas, BCS

+52 624-143-6915

info@seecreaturesbaja.com

We recommend flying into SJD Los Cabo at least 1 day early to avoid any hassles with cancelled or delayed flights or lost luggage. Even better, it gives lots of time for a day trip to dive or snorkel Cabo Pulmo, a Gordo Bank diving adventure. or maybe a 2 tanker “let’s get wet” dive out of Cabo. Our concierges are on standby to assist with everything, including hotel, restaurant, and transfer recommendations. If you are arriving on the same day as your ship departure, we recommend going straight to SeeCreatures Cabo to check-in, drop off your luggage, and then enjoy the rest of your day.

On your boarding day, please check-in at SeeCreatures Cabo by 7:00pm at the latest. Please be at SeeCreatures by 7:15pm for the mandatory safety video before boarding the your boat at 8:00pm.

Sample Itinerary

9 Days / 8 Nights Trip

Itinerary is subject to the vagaries of big animals, weather and Mother Ocean!

Pre- & Post-Trip Extensions

Maximize your vacation in Baja with savings on pre-trip or post-trip extensions including 2-tank boat dives or side trips out to Gordo Banks and Cabo Pulmo. In season, our beautiful 116' expedition yacht Gallant Lady is stationed at Cabo Pulmo for 6-day liveaboard extensions into the southern Sea of Cortez.

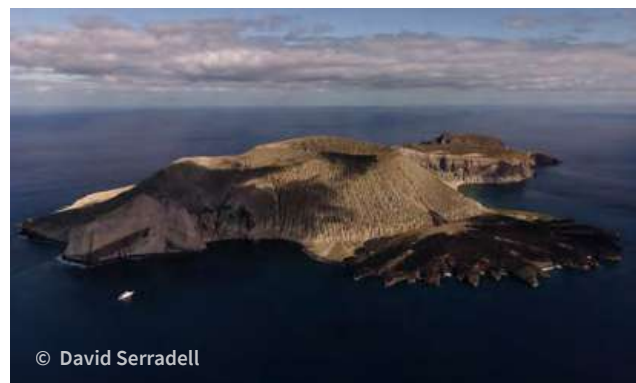

[Contact Us](#)

Day 1

Our Nautilus owned [SeeCreatures](#) is located downtown Cabo San Lucas, near the marina and is your home away from home. We encourage you to fly in early and allow us to arrange for some local diving whether it's Gordo Banks, Cabo Pulmo or the La Paz whale sharks. Your trip includes a complimentary photography lesson in the afternoon. Our photo pro's will coach you on how to get that perfect manta image, help set up or service or repair your camera gear and assist with camera rentals. You are welcome to drop your bags off and check-in whenever it's most convenient, but we ask that you please check-in at SeeCreatures by 7pm latest. Please arrive back to SeeCreatures by 7:15pm for the mandatory safety video before boarding the boat at 8pm.

[View Safety Video](#)

Day 2

Today is a traveling and relaxing day at sea. It is a one day run out to the islands. An orientation briefing will be held in the morning, followed by a fire and boat safety drill. A drill? On holiday? Don't worry, it is for your safety but we will make it lots of fun. We are proud to have been the first, and some of the only, ISM safety certified passenger vessel dive boats in the world, the same safety certification as the largest cruise ships. We'll keep you as busy as you like on this sea day with Manta 101 in the afternoon, then you will have a chance to prep your gear, read a book, relax on the sun deck or check out the movie selection on our onboard wifi. We will be watching for the "green flash" at sunset, and while cocktail hour is officially at 7pm every evening, many of our guests enjoy some adult beverages well before that on sea days! We should arrive at San Benedicto Island that evening allowing you a calm night to relax and get a restful sleep before the next morning's excitement of diving with the friendliest giant mantas in the world.

© Daniel Versteeg

Days 3-7

Over five full dive days you will be able to experience some of our favourite sites such as El Canyon, the Boiler, Red Rocks, Roca Partida, Cabo Pearse, Punta Tosca and Roca Oneal. We know that many of our guests want the option of as many dives as possible and we strive to offer an average of four dives a day, other than the day that we do our mandatory check-in at the local navy base when you will likely have the option of three dives. When the weather is really good and the seas are calm, certain dive sites like Roca Partida might become crowded with three or four dive boats in which case park regulations restrict us to offering three dives maximum that day. We cater to divers of all experience levels with what we call “dive butler”. We will quickly zip self-reliant and highly experienced divers straight to the dive site when it opens. Encouraging our newer divers who would like to be with a dive guide from start to finish to take their time gearing up and splash 20-30 minutes later. Most divers are somewhere in the middle of this and we will shuttle them along with dive guides to the sites with our skiffs running back and forth like taxi cabs! Note that several dives may be quite challenging and not suitable for divers of lower experience levels. The number of dives on offer is subject to weather, the whims of Mother Ocean, and crowding by other diveboats.

We will have other stuff going on to keep you as busy as you like with kayaks and paddle boards, shoreline tours, humpback whale watching (January to April), manta ID in the late afternoon and after-dinner presentations. Of course, it's always your option to find a nice quiet place to relax with a book, have a nice snooze, or maybe have a splash in our sparkling clear hot tubs.

Day 8

We will likely get underway very early this morning for the voyage back to Cabo San Lucas. This is the perfect day to check out photos and videos with the new friends you made onboard, pack your dive gear up and take time to relax before reality sets back in. The islands, the mantas, the sharks and the dolphins are almost “other worldly” and we hope the magic stays with you for a long time.

Day 9

Always a sad time for us. It's time to say goodbye and disembark the boat in Cabo at 8:30am for either SJD airport or to SeeCreatures in Cabo San Lucas. It doesn't have to be goodbye for long, we hope to see you again very soon.

© David Serradell

What am I going to see?

The friendliest giant mantas in the world. Bottlenose dolphins that are almost as friendly. Up to ten species of sharks. Loads of fish. And in season you might see humpback whales, pilot whales, tuna or even false killer whales.

What to Bring

What do I need to pack?

Personal toiletries. Dive gear (or travel light and use our rental gear!) Summer wear, noting that nights can sometimes be chilly which makes a sweater or fleece jacket a good addition. Sunscreen (reef-safe sunscreen will be available onboard with our compliments). Towels and bed linen are provided onboard.

What dive gear should I bring?

All the obvious stuff!! i.e. regulators, BCD, computer, mask, wetsuit, booties and fins. The park authorities prohibit divers from carrying a knife. Every diver should have their own [Nautilus LifeLine](#) but we will loan you one of ours if you haven't bought yours yet!

What kind of safety gear do you provide divers?

Nautilus LifeLines, DiveAlerts and SMB safety sausages.

Can I bring my own alcohol onboard?

Sorry, but NO. We carry a great selection of signature drinks, single malts, microbrew beer and a varied wine list, all at very reasonable prices.

Don't Forget!

What time do we arrive back in port?

Usually by 8:30am. We recommend booking an outward flight after 11:30am. We can help arrange your outbound transfers.

Do you have a storm policy?

We highly recommend trip interruption insurance, which will cover you in this unlikely eventuality.

Can you accommodate special dietary requests?

YES - with reasonable advance notice, we are pleased to accommodate vegetarian, vegan, lactose intolerance, gluten-free, low sugar, quasi-kosher and quasi-halal. We are likely unable to accommodate more esoteric special dietary requests.

What is NOT included in the trip price?

Bar, gift shop, high-speed Internet connection, rentals, nitrox, crew gratuities. A \$35 port fee must be paid on board in cash at the end of the trip.

Travel Details

Do I need a passport and/or visa?

All guests must have a passport valid six months from entry. Visas are required from certain countries, please check your specific requirements online. All non-Mexican guests will require an FMM tourist visa.

Do I need insurance?

Guests are required to have medical and evacuation insurance from a recognized provider before participating in any of our activities. [Click here](#) to purchase coverage. The policies are very affordable. We also highly recommend the optional purchase of trip interruption insurance, which covers everything from cancelled flights, weather delays, and lost baggage, to reimbursement if another guest has a medical issue that affects your trip. If you decline coverage, please note that we do not issue credits or refunds for anything that is beyond our immediate control.

Do I need dive medical insurance?

YES. Dive and evacuation insurance is mandatory. We can assist you with purchasing this at check-in if you like.

What airport do I fly into?

SJD Los Cabos International for both commercial airlines and private aircraft.

When should I fly in?

At least one day before departure given our experience with airlines having mechanical problems, losing luggage or even cancelling flights. It's a one-day sail from Cabo out to Socorro which means the ships cannot wait for guests who have missing luggage or missed their flight, otherwise everyone else will also miss a day of diving.

How do I get from SJD into town?

Sealine Cabo Transfers is our recommended provider of airport transfers to and from Cabo San Lucas. For booking, please email Martin at mmoreno@sealinecabotransfers.com

We also recommend Miguel from Fara Nuevo as an alternative option.

Email: mfc949@gmail.com

Phone: +52 (624) 141 6254

Can you recommend a local hotel?

Yes. We have our favourite hotels that we highly recommend and have arranged discounted rates for Nautilus and Baja Expeditions guests.

For hotel recommendation or any other pretrip questions, concerns or comments, please contact our Nautilus concierges directly.

Phone: +1 (604) 241-1918 - Please ask for our concierges.

WhatsApp: +52 (624) 129-9243

Email: concierge@nautilusdive.com

Before Departure

Where do we meet the boat?

SeeCreatures, located directly across from the town square, two blocks from the marina and in the heart of the downtown restaurant and bar district. We want our place to be your home away from home! Please drop by when you get into town and we will get you kitted up with whatever you need. We offer a variety of pre-trip packages including two or three tank boat dives and side trips.

What time do we meet?

You are welcome to drop your bags off and check-in whenever it's most convenient, but we ask that you please check-in at SeeCreatures by 7pm latest. Please arrive back to SeeCreatures by 7:15pm for the mandatory safety video before boarding the boat at 8pm.

Can you help me get dive certified before the trip?

YES. We offer a full array of dive courses at SeeCreatures.

Can I get nitrox certified?

YES, at SeeCreatures.

Will I need to show my dive certification card before boarding?

YES.

Will I get seasick on this trip?

MAYBE!! Ok, we are joking a wee bit. We recommend prophylactic use of the scopolamine "patch" as an anti-seasickness medication. The patch has revolutionized the dive boat business and made going to sea practical for almost everyone. You will most likely not get seasick using the patch. The seas on the crossing - and out at Roca Partida dive site - are sometimes flat calm, while other times - maybe once in ten trips - the seas are rough. All of our ships are stabilized and the motion is comfortable - especially if you are using the patch - on the majority of days.

About Diving

How much experience do I need?

All are welcome. Our roots are in the cold, current-swept waters of BC and Alaska and we have always catered to experienced self-reliant divers looking for complete freedom on their dives. These divers are usually first in the water. We love buddying up with new divers looking for the reassurance of being with a dive guide from the time they start gearing up until they are back on the big boat. Most divers are somewhere mid-spectrum between these two groups and we make sure they are very well looked after as well! Note that several dives may be quite challenging and not suitable for divers of lower experience levels.

Is the diving from the big boat or skiffs?

Usually from our skiffs. We employ our multiple skiffs as "taxis" so that we can pick up divers when they surface and whisk them back to the big boat instead of waiting in the hot sun for everyone else to surface.

How many dives will I do?

Over five full dive days you will be able to experience some of our favourite sites such as El Canyon, the Boiler, Red Rocks, Roca Partida, Cabo Pearce, Punta Tosca and Roca Oneal. We know that many of our guests want the option of as many dives as possible and we strive to offer an average of four dives a day other than the day that we do our mandatory check in at the local navy base when you will likely have the option of three dives. Note that weather conditions, Mother Ocean or crowding by some of our competitors may limit some diving.

Are the boats camera friendly?

YES, VERY! Ask about rental cameras and photo pro services.

Are you rebreather friendly?

YES, VERY!

Can I do deco dives?

Sorry, no. Park rules have changed and deco diving is no longer permitted.

Can I do trimix diving?

We can arrange the supply of helium T bottles as long as you are comfortable doing your own blending.

Where is the closest decompression chamber?

There is a navy chamber on Socorro Island and civilian chambers in Cabo San Lucas.

What happens if I need a medevac flight?

We can arrange the flight for you. There is a 5000-foot navy airstrip on Socorro Island. A single flight costs a minimum of US\$10,000 and if you don't have adequate insurance, you will need to arrange for pre-payment of the flight.

Do you have an AED and medical kit onboard?

OF COURSE! All of our crew are trained in first aid and a number of our crew are trained first responders.

Excursion Risk

We are excited to have you join us, but feel compelled to point out [some of the risks](#) involved in our adventures around Baja, Mexico and the surrounding ocean.

We operate at the whim of Mother Nature. Our ships and camps have connectivity with shore operations, and we carefully monitor weather conditions while maintaining communication lines for urgent and emergency situations. Our ocean-going ships are equipped with satellite communication technology, full-time data links, internet at sea, and marine radios. We need you to be aware that there is always a risk of adverse weather, mechanical breakdown, errors, or mistakes made by our crew, medical evacuations, or other interruptions to your trip that are beyond our control.

Dealing with animals involves risk. Camping out in the desert involves risk. Going to sea involves risk. This is not Disneyland. We give careful guidance on peak seasons and our previous experiences with the animals. But there is no guarantee that you will see the animals you are hoping for; Mother Nature doesn't work that way. Guests and crew alike are susceptible to accidents, tripping and falling, sprains, or broken bones, strokes, heart attacks, or medical conditions such as appendicitis, pancreatitis, diabetic complications, heat or sun exhaustion, dehydration, severe infections, abscesses, or other emergency conditions.

Diving can be challenging and may not be suitable for less experienced divers. You must be a trained and certified scuba diver to dive with us unless you are enrolled in one of our training programs. Guests are responsible for their own dive safety. Our dive guides and instructors are primarily responsible for ensuring top-quality dives, critter pointing, and the best possible guest experience. You must have good buoyancy control. Our guides are not responsible for teaching primary dive skills or looking after guests who do not have basic buoyancy skills.

Aerial medevac is available at or close by most of our destinations. We require that all guests have insurance that covers emergency care in Mexico, including aerial medevac and hospital procedures. A medical evacuation flight might cost \$10,000, and local hospital charges could be in excess of \$20,000. You will have to arrange for payment upfront for these costs if you require evacuation or a hospital stay and your insurance won't cover the charges. 'Dive Assure' offers excellent coverage and is highly recommended. [Click here](#) to arrange coverage.

A sample [liability release and waiver can be viewed here](#) and requires your acceptance, agreement and signature when you visit SeeCreatures before boarding your ship.

We wish you an excellent trip, meet loads of animals and have a beautiful and safe experience.

PASSENGER GUEST WAIVER, RELEASE AND INDEMNITY (the "Waiver")

In consideration of you allowing me to participate in your camping and/or whale watching and/or excursion (the "Excursion"):

I voluntarily waive, release and forever discharge NAUTILUS DIVE ADVENTURES AND/OR all its related entities: ICARUS AVIATION LTD also doing business as "Lever Diving" AND/OR NAUTILUS EXPLORER MEXICO, S. DE R.L DE C.V. AND/OR BAJA EXPEDITIONS AND/OR BSK, S.A. DE C.V. AND/OR SEECREATURES AND/OR CABO DIVE CENTRE, S. DE R.L. DE C.V (collectively the "Company") and its employees, directors, officers, agents and contractors (collectively the "Operators") from any and all liability, including but not limited to liability arising from the negligence (including gross negligence) or fault of the Operators or any of them for personal injury or death, property loss or damage or any other claims of any kind which may occur to me during or in connection with the Excursion and/or the use or misuse of any equipment, vessels or vehicles.

I agree that all agreements made between the Operators and myself (including this Waiver) shall be governed by the laws of Mexico and the courts of Mexico City, shall have exclusive jurisdiction over any matter relating to the said agreements or this Waiver.

I agree that this Waiver shall be binding upon my heirs, executors, administrators, successors, assigns and my estate and I agree that in the event that a claim is made against the Operators or any one of them in respect of any cause of action relating to me, I will indemnify the Operator(s) for their losses, damage and expenses arising from such claim.

I confirm that I have both read and fully understood the description of the risks involved in participating in the Excursion as set forth in the Company's disclosure information entitled "DIVING EXCURSION RISKS" published on the Company web site (<https://nautilusliveaboards.com/diving-excursion-risks/>) and in the pre-trip information package provided to me.

I also confirm that I:

- (a) am physically fit; without any health related reasons that would otherwise preclude my;
- (b) have had sufficient instruction, preparation and/or training for; and
- (c) have not been advised by any medical professional to avoid participation in the Excursion.

Finally, I confirm that I read and fully understood this Waiver before signing and, that I had the opportunity to do so before making any commitment of whatsoever kind or nature to the Company.

Please note that you will be required to sign this waiver form upon the arrival at the hospitality suite.

Our Responsibilities, Your Responsibilities

Our Responsibilities

- To ensure your safety.
- To give you the best possible diving experience.
- To treat you with respect and consideration and to provide excellence in service onboard.
- To be responsive to special requests and needs.
- To plan each trip with respect to weather, sea conditions and animal behavior in order to maximize your diving experience.
- To keep our ships in top condition, clean and in good mechanical repair. Please note that each ship has many complex systems and it may be impossible to prevent some maintenance problems during your trip, despite our best efforts.

Your Responsibilities

1. Animals

We love Mother Ocean! Unfortunately, sometimes guests will demonstrate unsafe or irresponsible behavior towards animals that impedes other guest's experiences and/or may cause harm to the animals. It is your responsibility to follow the crew's directions and recommendations with respect to interaction with the animals. In the unlikely event that an individual is impeding other guests and/or causing harm to the animals, the captain will speak to that person and give them a formal warning. If the guest continues the same behavior, the captain has the authority to hold that guest out of the water for the remainder of the trip.

2. Diving Safety

It is your responsibility to attend dive briefings and comply with the principles of safe recreational diving. Deco diving or deliberately "going blue" is not allowed at Socorro. The government of Mexico has set a maximum depth restriction of 133'. The captain has the right to revoke the diving privileges of anyone who is diving in an unsafe manner.

3. Alcohol

With almost 30 years of operational experience running dive charters, we have learned the safest alcohol policy is to restrict guests from bringing their own alcohol on board. We provide a wide selection of beer, wine and alcohol from the ship's bar at reasonable prices. We are also happy to hold your duty-free purchases or local purchases of alcohol in bond in the ship's storage until the end of your trip.

4. Government Rules

You must comply with all Mexican government rules and regulations. Please note that government regulations and laws may change without notice. Our contract with you is subject to "force majeure" without compensation.

5. Marijuana

Marijuana is illegal in Mexico including medicinal prescription marijuana. We have a zero tolerance policy regarding guests bringing marijuana onboard.

6. Illegal Substances

We maintain a zero tolerance for illegal narcotics or substances on board. We're required under Mexican law to report any problems to the Mexican Federal Police.

7. Crew

Treating our crew and staff with courtesy and respect.

8. Getting Sick

We sincerely hope that you stay healthy and don't get sick during your trip. Please let the crew know if you are not feeling well so that we can give you extra love and attention and also do our best to prevent anyone else onboard from getting sick.

A Note on Gratuities

© Scott Davis

I hope we have left you with the feeling that our crew has served you with warmth, good cheer, and has done their very best ensuring your safety and excellence in guest services. I am incredibly proud of our hardworking and dedicated staff.

Attitudes towards tipping vary around the world. In Mexico, it is considered disrespectful to the crew and staff to not leave a gratuity if the service is deserving. For your guidance, most guests leave a tip of US\$275 to \$400.

We greatly value your feedback about your experience with us, including anything we can improve on. I would really appreciate any comments or thoughts you might share. Simply click on **“Your Feedback”** on the boat Wi-Fi portal to share your thoughts.

On a personal note and as my thanks to you, I invite you to join our Last Minute Club, exclusively for repeat clients. Members receive incredible savings of up to 75% on last-minute adventures, offered 3 or 4 times a year. If you love awesome deals, simply click on **“Last Minute”** on the boat Wi-Fi portal to sign up.

Thank you very much for trusting us with your vacation!

Sincerely,

A handwritten signature in black ink that reads "M. Leven".

Captain Mike
Proprietor, Nautilus Adventure

What objects can I bring in my luggage to Mexico?

If you are visiting Mexico, you may bring the following tax-exempt items, whether new or second hand:

- Baby gear, such as strollers, car seats, cribs, walkers and their accessories.
- Two cameras or camcorders and camera gear; three cellphones or other wireless devices; one GPS; one electronic organizer; one laptop, notebook, omnibook or other portable computing device; one portable copier or printer; one CD burner and one portable overhead projector and its accessories.
- One tent and other camping articles.
- Two sets of personal sport gear; four fishing rods; three gliders with or without sails and their accessories; trophies and awards, as long as you can carry them without any difficulty.
- Two musical instruments and their accessories.
- One hand tool set, including its case, a drill, pliers, wrenches, screwdrivers, power cords, etc.
- One pair of binoculars and one telescope.
- Five laser disks, ten DVDs, thirty CDs, three software packs and five storing units for any electronic device.
- Five toys, including collectables, one videogame console and five videogames.
- One blood pressure monitor and one blood glucose monitor (or one monitor for both purposes), reagents included; drugs and other psychotropic substances, including cannabis, in which case you must present the prescription, have the medical identification number or any other contact detail of your physician and exclusively bring the amount needed for your trip.
- Valises, trunks, suitcases or any other item needed to carry your personal belongings.
- If you are over eighteen, ten packs of cigarettes, twenty-five cigars or two hundred grams of tobacco; three litres of alcoholic beverages and six litres of wine.
- Wheelchairs, walkers, canes, crutches or any other assistive device for the elderly or disabled people.
- One portable audio recorder, audio player or audio recorder and player (or two digital sound and image recorders or players instead), one portable DVD player and one set of portable speakers and its accessories.

If you enter or leave Mexico, you must declare any sum of money equaling US\$10,000 or more that you bring in cash, checks, money orders, other cashable documents or a combination of them. Failing to declare carries a fine ranging from 20% to 40% of the exceeding amount. Failing to declare sums of US\$30,000 or more is punishable by six months to six years of imprisonment and the amount being seized for the federal treasury if its lawful origin is not demonstrated. Should you not prove its lawful origin, you will be sentenced to a period of five to fifteen years of imprisonment and to one thousand to five thousand day-fines.

For more information, please contact the following Mexican government agencies:

- Servicio de Administración Tributaria (SAT):
www.sat.gob.mx
(55) 627 22 728 in Mexico City or +1 (877) 448-8728 from the USA and Canada

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). Fly NONSTOP to Los Cabos (SJD) on United or Southwest — about 3 hours. Easy start.
2. Arrive at least one day early (HPS schedules this) and clear Mexican immigration at Los Cabos.
3. Transfer to Cabo San Lucas and check in with SeeCreatures / Nautilus.
4. Board the Nautilus Belle Amie in the evening; she sails overnight toward Socorro.

Coming Home

1. The boat returns to Cabo San Lucas; disembark and transfer to Los Cabos (SJD).
2. Fly NONSTOP Los Cabos to Denver (DEN).
3. Clear U.S. Customs & Immigration on arrival in Denver — collect bags, hand in your declaration.
4. You're home — with the trip of a lifetime behind you.

Trip Essentials

Fly into: Los Cabos International (SJD) — nonstop from Denver

Currency: Mexican Peso (MXN); boat fees often in USD
Language: Spanish; English on the boat

Good to know: Dive + evacuation insurance is MANDATORY to board — buy it early. Marine-park, port fees and crew gratuities are extra and mostly cash.

Pro tip: Consider a scopolamine patch — the open-ocean crossing can be bumpy. Bring small USD bills for the port fee and tips.

Gear from High Plains Scuba

- 5mm wetsuit + hood — cooler Pacific water
- Nitrox-capable dive computer
- SMB + Nautilus Lifeline / personal locator — essential in blue water
- Pointer and a save-a-dive kit
- Motion-sickness remedy (patch or tablets) for the crossing

Ask us about gear fitting, rentals, and nitrox certification before you fly.

07 ROATAN, HONDURAS · CARIBBEAN
April 8–15, 2028

CoCo View Resort, Roatan

The most-loved dive resort in the Caribbean — walls, wrecks, and unlimited diving off your own front yard.

There's a reason CoCo View Resort on Roatan has the highest repeat-guest rate of any dive resort anywhere: it's built by divers, for divers. Your over-water bungalow sits steps from the "Front Yard" — a house reef with the sunken Prince Albert wreck — where you can shore dive 24/7, as much as you want, on your own schedule.

Add boat dives along CoCo View Wall and Newman's Wall, night dives, and a warm, easygoing island vibe, and you've got one of the best value-for-experience dive trips in the world. It sits on the Mesoamerican Reef, so the coral and fish life are spectacular. This is a diver's trip through and through — if you want to dive until you're happily exhausted, Roatan delivers.

Trip Introduction

CoCo View Resort: Roatan's Premier Dive Destination

Escape the hustle of everyday life and immerse yourself in the ultimate diving paradise at CoCo View Resort in Roatan, Honduras. Nestled at the reef's edge, the resort is a haven for scuba divers and snorkelers, earning its reputation as one of the top dive resorts in the Caribbean.

The Clubhouse, the heart of the resort, offers a welcoming social space with a stocked bar, games room, lending library, and video area, along with hearty buffet-style meals. For those seeking relaxation, enjoy the upper deck's serene ocean views or unwind in a hammock scattered throughout the property. Oceanfront rooms, over-the-water cabanas, and bungalows all provide the perfect retreat to soak up the tropical sun.

With world-class dive sites just steps from your door, a vibrant community of returning guests, and a commitment to comfort and top-tier diving, it's no wonder CoCo View Resort has the highest return rate of any dive resort in the world—with over 1,600 guests visiting five times or more!

A Legacy of Excellence in Diving

Accommodation & Destination Experience

Coco View Resort

CoCo View Resort is one of the most iconic dive resorts in the Caribbean and a true benchmark for effortless, high-volume diving experiences. Set directly on the edge of Roatán's world-famous reef system, this all-inclusive dive retreat is built entirely around one thing - maximizing time underwater with the least possible friction above it.

Often described as "summer camp for divers," CoCo View offers a uniquely immersive setup where the reef quite literally begins steps from your room. The resort's legendary "Front Yard" provides unlimited 24-hour shore diving and snorkeling on pristine walls, a historic wreck, and vibrant reef systems - all accessible directly from shore without a boat ride. This rare setup allows divers to enter the water whenever they choose, making it one of the most flexible and dive-intensive destinations in the Caribbean.

For boat diving, custom-designed dive vessels provide quick access to Roatán's surrounding sites, offering guided dives along dramatic coral walls, sandy chutes, and thriving marine habitats filled with turtles, rays, eels, and macro life. The combination of boat diving and unlimited shore access creates an ideal rhythm for dive groups looking to maximize bottom time without sacrificing comfort or ease.

Accommodations are simple, comfortable, and positioned right along the water's edge, with oceanfront rooms and overwater cabanas that keep guests fully immersed in the island's marine environment. Every room is designed for convenience after long dive days, offering easy access to gear storage, rinse stations, and the water itself.

Between dives, the resort's central clubhouse serves as the social hub, where guests gather for hearty meals, tropical drinks, and relaxed downtime overlooking the Caribbean Sea. Hammocks, ocean breezes, and a laid-back atmosphere make it easy for groups to connect, share dive stories, and unwind before the next underwater adventure.

Daily Itinerary

DAY 1: ROATAN

SAT. 8 APR 2028

Arrive at the airport and meet your driver for transfers through the beautiful island to your resort. It's time to check in and enjoy your stay!

INCLUDED

Welcome Cocktail.

Complimentary airport transfers

Dinner

Free use of ocean kayaks

Free Wi-Fi

EXCLUDED

Drinks

DAYS 2 - 7: ROATAN

SUN. 9 APR 2028 - FRI. 14 APR 2028

Divers spend the next few days exploring the beautiful dive sites and all that await you.

Walk in – walk out. How easy can it get? Roatan shore diving in front of CoCo View Resort is so good (and so effortless!) that many divers miss the boat on purpose!

An incredible array of marine life can be found along the renowned CoCo View Wall, Newman's Wall, and at the easily accessible wreck of the Prince Albert – all within a few fin kicks from the Clubhouse. You don't even have to step on a boat!

CoCo View's Front Yard is open for your diving pleasure 24 hours a day, seven days a week. Dive Roatan whenever you want – air is always available at their 150-bottle tank storage rack. Daylight offers shimmering, crystal clear waters that explode with color, but divers also love our Front Yard for its great night diving opportunities and the "creatures of the dark" that make it their home.

A Haven for Snorkelers

CoCo View snorkeling is just as good as the shore diving in their "Front Yard". Literally sitting on the edge of the coral reef, snorkeling is as easy and convenient as can be. Swim a little, tan a little, swing in the hammock, and snorkel whenever you want! You will always see something new and beautiful playing out in the Front Yard!

If you aren't in the water, maybe select from a wide range of cultural or adventure tours available and see a bit more of this gorgeous country. Or simply do nothing at all, relaxing in the hammock on your private deck at the edge of Roatan's incredible underwater realm.

INCLUDED

3 Full meals daily

DAY 8: END OF ITINERARY

SAT. 15 APR 2028

It's the saddest part of the trip – it's time to return home! But after all of the fun you've had and the memories made, we're sure you can't wait to come back for another visit!

INCLUDED

Breakfast

Airport transfers

EXCLUDED

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). United runs a seasonal nonstop to Roatan (RTB) on Saturdays (~5 hours); otherwise you connect through Houston or Atlanta.
2. Land at Roatan's Juan Manuel Galvez International (RTB) and clear Honduran immigration.
3. The CoCo View boat/shuttle meets the HPS group — part of the transfer is by water taxi to the resort.
4. Check into your waterfront room and dive the Front Yard that same day if you like.

Trip Essentials

Fly into: Roatan – Juan Manuel Galvez Intl (RTB)
Currency: Honduran Lempira (HNL). USD widely accepted.

Language: Spanish & English (Roatan is largely English-speaking)

Good to know: A sales tax applies to purchases. Nitrox is a must-add for the unlimited diving. No visa for U.S. citizens.

Pro tip: Carry small bills for taxis (no meters — agree the price first). Nitrox lets you take fuller advantage of unlimited shore diving.

Coming Home

1. Transfer back to Roatan airport (RTB).
2. Fly nonstop to Denver, or connect through a U.S. hub.
3. Clear U.S. Customs & Immigration at your first U.S. airport — bags, declaration, re-check if connecting.
4. Fly home to Denver (DEN).

Gear from High Plains Scuba

- 3mm wetsuit — warm Caribbean water
- Nitrox-capable dive computer — make the most of unlimited diving
- Dive light — for the 24/7 house reef and night dives on the Prince Albert wreck
- SMB and a save-a-dive kit
- Extra mask & defog — you'll be in the water constantly

Ask us about gear fitting, rentals, and nitrox certification before you fly.

08

GUANACASTE & ARENAL, COSTA RICA · PACIFIC

June 10-17, 2028

Costa Rica Ocean & Volcano Adventure

Pacific manta dives by day, rainforest volcanoes and hot springs by land — the best of both worlds.

Not everyone in your group may be a diver — and that's exactly why Costa Rica shines. This trip pairs world-class Pacific diving with an unforgettable land adventure, so nobody sits on the sidelines.

You'll spend five nights beachfront at the all-inclusive Margaritaville Resort on Playa Flamingo, diving the Catalina Islands for Pacific manta rays, eagle rays, and white-tip reef sharks. Then it's inland to Arenal and La Fortuna for two nights — a hanging-bridges rainforest walk, sloths and toucans, a thundering waterfall, a traditional tortilla-making visit, and a soak in natural volcanic hot springs.

It's the trip that turns a dive vacation into a full Costa Rican experience — pura vida, above and below the surface.

Trip Introduction

Enjoy this magical combo tour where you can enjoy the beautiful coastline and underwater treasures of Costa Rica combined with the breathtaking volcanoes and incredible rainforests inland.

Highlights include:

Dive or snorkel Guanacaste area with reef sharks, turtles, sea horses, eels, octopus, and massive schools of tropical fish.

Easy to add additional dive days, tanks, or night dives

Fill your days with the amazing wildlife in the rainforest

Accommodation & Destination Experience

Costa Rica Ocean and Volcano Adventure!

An Oceanfront Costa Rican Resort with The Spirit of Pura Vida

Change your latitude and escape to a tropical paradise where golden sands invite you to linger under shady palms and the warm, blue Pacific Ocean beckons you to dive in and explore. Where a relaxing and casual beach vibe and authentic hospitality truly inspire the spirit of Pura Vida – the pure life. Relax in beautiful rooms and suites, including specialty family suites, overlooking tropical gardens, oversized pools, and the Pacific Ocean. Indulge your senses at OnZen Spa, lounge on the pristine beach, or enjoy paddle boarding on Pacific waves. Relax by the sparkling outdoor pool and sip a cocktail at the swim-up pool bar. Take in a spectacular sunset over the ocean while enjoying international cuisine infused with Costa Rican flavors in one of three restaurants. Enjoy whitewater rafting, zip-lining adventures, scuba diving, deep-sea fishing, and volcano tours. At Margaritaville Beach Resort Playa Flamingo, the possibilities for romance and adventure are endless.

At the resort's onsite beach area, miles of sugary soft sand stretch to iridescent blue water, beckoning you to pack your beach bag and leave your cares behind. Surround yourself with the rustling of palm trees, the songs of exotic birds, and the occasional call of a monkey. When you're ready for your beach adventure, the Water Sports Center can equip you with everything you need, including umbrella rentals, boogie boards, kayaks, and beach chairs. They also offer ATV Tours, so you can explore the area around the resort by land. The independently operated Water Sports Center is open daily from 9:00 a.m. to sunset, weather permitting.

Escape to a breathtaking oceanfront retreat surrounded by mountains, mangroves, and golden sands. Awaken to the sound of Pacific Ocean waves rolling onto Flamingo Beach, providing a soundtrack for relaxation. Their spacious Playa Flamingo hotel rooms bring you authentic and eco-friendly Costa Rican comfort in the tropical beauty of Flamingo Beach. Enjoy beautifully decorated rooms and suites with modern amenities, local decor, and scenic views of the pool, beach, or ocean for an unforgettable vacation experience. Relax on your private balcony refreshed by ocean breezes and the sound of the waves and local birds just outside. Leave your cares behind and refresh, relax and rejuvenate at Margaritaville Beach Resort Playa Flamingo.

Crowned by breathtaking mountain ranges, dotted with rainforests, and framed by environmentally protected beaches, Costa Rica is one of the world's most exotic destinations. And no place makes it easier

to explore all that their beautiful country has to offer than the Margaritaville Beach Resort Playa Flamingo. Lose yourself in the gorgeous waters and gently curving sands of Flamingo Beach. Enjoy world-class deep-sea fishing for marlin, sailfish, tuna, dorado, and snapper in the Pacific Ocean. Just offshore from their resort, Islas Catalinas offers amazing scuba diving amidst an incredible array of marine life.

Daily Itinerary

DAY 1: PLAYA FLAMINGO

SAT. 10 JUN 2028

Arrive in Liberia Airport (LIR) and meet your driver for transfers with fellow HP Scuba travelers for a quick and picturesque ride to your home for the next few days on the coast.

After getting settled in, Divers will meet in the lobby at 4:30pm for a briefing.

Then it's time to get comfortable as we look forward to an amazing week ahead!

EXPERT TIPS

Please review your passport expiry to ensure it is valid for at least six months from the end of your trip.

Nature lovers should bring a set of binoculars, and everyone should have a lightweight rain jacket, water shoes with straps, tennis shoes, a sunhat, sunglasses, bug spray and reef safe sunscreen.

When we meet for the dive briefing, divers bring your C Card, Logbook, and any personal dive equipment that you will be using and would like to have the dive shop take and have ready for you on the boat the following day.

INCLUDED

Airport transfers as a group from Liberia (LIR)

DAYS 2 - 4: PLAYA FLAMINGO

SUN. 11 JUN 2028 - TUE. 13 JUN 2028

For the next three mornings, divers will meet at 8:15am in the lobby for a brief transfer to the dive boat for a 2-tank morning boat dive.

Experience local dive sites teaming with marine life such as the Pacific Manta Rays, spotted eagle rays, white tip sharks and huge schools of tropical fish.

For those not diving, enjoy the relaxing casual beach vibe and authentic hospitality at the resort or explore the area where a vast range of activities are available including tree-top canopy tours, thermal pools, waterfalls, nature walks and so much more which can be arranged in advance or with the hotel tour desk.

INCLUDED

Accommodations

All-inclusive including meals and drinks at Margaritaville Resort

2-tank boat dive for divers.

EXCLUDED

Rental equipment

DAY 5: PLAYA FLAMINGO

WED. 14 JUN 2028

Divers have a full day to relax and play on Playa Flamingo or enjoy the facilities at Margaritaville Beach Resort. You can also explore the local beach town close by with its array of restaurants and the chance to browse for Tico crafts and produce.

Chilling not your style? The onsite tour desk can assist you in planning your day. The region has so much to offer no matter how you prefer to spend your time. The options are endless!

INCLUDED

Accommodations

All-inclusive including meals and drinks at Margaritaville Resort.

EXCLUDED

Rental equipment

Nitrox

Spa services and optional land excursions

DAY 6: LA FORTUNA

THU. 15 JUN 2028

Meet our private guide at 830am to begin your journey to the breathtaking interior of the Country.

Enroute we will stop for our Sloth Encounter and Frog Tour. As we amble on a gentle path, looking for sloths, there is a pretty good chance we will also see some of the beautiful blue jeans frogs, ruby-eyed tree frogs, and glass frogs, with our local naturalist guide helping us spot them. Our guide will also share fun facts about Costa Rica while looking for monkeys, toucans, birds and other animals that we might be treated to on this tour.

After a traditional Tico lunch, we continue on to La Fortuna - home of Arenal Volcano which remains incredibly active even today.

After settling in, we will meet at 7pm for a group dinner at the main restaurant of the Magic Mountain Hotel, a rich culinary experience that invites you to savor unique flavors, with unparalleled customer service, creating an unforgettable experience.

EXPERT TIPS

When you pack, be sure to wear comfortable clothes and shoes and have the following items accessible for the journey: Camera, Sunscreen, Binoculars, Sun hat, Rain Jacket & Sunglasses.

INCLUDED

Accommodations

Breakfast at Margaritaville Resort

DAY 7: LA FORTUNA

FRI. 16 JUN 2028

At 10am we will meet our guide to spend the morning experiencing some of the best of Arenal, with a visit to the Hanging Bridges and La Fortuna Waterfall. Walk through lush rainforests, explore biodiversity, and enjoy a refreshing swim in crystal-clear waters.

This tour combines rainforest exploration with one of the most iconic waterfalls in Costa Rica and is ideal for travelers who want to connect with nature through scenic walks and refreshing moments in the jungle.

Our day starts with a visit to Arenal Hanging Bridges, walking through rainforest trails and suspension bridges in the canopy. This unique perspective lets you observe wildlife, tropical plants, and the rich biodiversity of the region.

The tour continues to La Fortuna Waterfall, one of the most beautiful natural attractions in the area. You can swim in clear waters surrounded by lush rainforest and enjoy a peaceful connection with nature.

After working up an appetite, we depart for the Doña Mara Tortilla Making Experience and visit with a local family. This time at Doña Maras home will give you a better understanding of the meaning of "Pura Vida" (pure life) experienced by rural Costa Ricans. This authentic cultural experience should be a part of everyone's visit to Costa Rica!

You will be welcomed with a tropical drink (pineapple, orange, and coconut water) at the "rancho" (like a gazebo) and enjoy a delicious typical lunch prepared on Doña Mara's rustic wood-fired stove. While lunch is cooking, you will get an opportunity to try your hand at making tortillas from freshly ground corn "masa." You will learn how to flatten the dough into perfect circles, ready for cooking – and for the best part – you will get to enjoy the fresh homemade tortillas served with lunch! Guests are encouraged to practice their Spanish and learn about Costa Rican culture while eating lunch with the family

After lunch we head back to our hotel for some time to relax before our final activity of the trip.

At 5pm we meet for a brief ride to the Eco Termales Hot Springs. This sanctuary of pleasure, nature, and beauty that has been the life's work of the Hidalgo family focused on toward privacy and relaxation — it does not accept more than 100 visitors at one time so guests will never feel lost in crowd and will always find your own place to unwind.

There are five volcanic hot springs fed pools that range in temperature from 99 to 106 degrees Fahrenheit. There is also a waterfall and freshwater pool adding to the ambiance. While the pools are manmade, they are built to contain and enhance the natural volcanic hot springs which feed directly into them. In addition to hot springs, the property offers several paved and lit trails so you can explore the surrounding jungle. There are large trees, broadleaf plants and many tropical flowers. It truly is a magical setting!

DAY 8: END OF ITINERARY

SAT. 17 JUN 2028

It's the saddest part of the trip - it's time to begin the journey return home.

But we are sure the wealth of incredible and unique memories we've made, will last a lifetime!

INCLUDED

Breakfast

Group transfers to Liberia (LIR)

EXCLUDED

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). Fly to Liberia (LIR) in Guanacaste — seasonal nonstops exist, otherwise one connection through Houston or Dallas.
2. Land at Liberia (LIR) and clear Costa Rican immigration.
3. Transfer with the HPS group to the Margaritaville Beach Resort on Playa Flamingo.
4. Later in the week, a scenic land transfer takes the group inland to Arenal / La Fortuna.

Trip Essentials

Fly into: Liberia – Daniel Oduber Intl (LIR)

Currency: Costa Rican Colón (CRC). USD widely accepted; change in colones.

Language: Spanish; English common in tourism

Good to know: Passport must be valid 6+ months. No visa for U.S. citizens. Rainy-season showers are brief — pack a light rain layer.

Pro tip: Bring binoculars for wildlife and reef-safe sunscreen. Pull colones from a bank ATM; decline the conversion.

Coming Home

1. Transfer from Arenal back to Liberia (LIR).
2. Fly to your U.S. connection city (or nonstop to Denver in season).
3. Clear U.S. Customs & Immigration at your first U.S. airport — bags, declaration, re-check.
4. Fly home to Denver (DEN).

Gear from High Plains Scuba

- 3mm wetsuit — comfortable Pacific temperatures
- Personal dive computer
- SMB for the Catalina Islands boat dives
- Reef-safe sunscreen, hat and a light rain jacket for the rainforest
- Save-a-dive kit and defog from HPS

Ask us about gear fitting, rentals, and nitrox certification before you fly.

VOLIVOLI & BLIGH WATER · FIJI, SOUTH PACIFIC
July 15–25, 2028

Escape to Fiji!

The Soft Coral Capital of the World — electric reefs, warm smiles, and the trip you'll never stop talking about.

Fiji is the dream. Known as the "Soft Coral Capital of the World," its Bligh Water reefs explode with color — walls draped in vivid pink, purple, and orange soft corals, clouds of orange anthias, and drifting reef sharks. It is, quite simply, some of the most beautiful diving on the planet.

You'll stay at Volivoli Beach Resort on the northern tip of Viti Levu, with eight days of three-tank diving and unlimited nitrox for certified divers. Above water, Fijian culture is warm and welcoming — a traditional meke performance and a lovo (earth-oven) feast are part of the experience.

It's a long way from the Rockies, but flying as a group with HPS — who's working to arrange group airfare at cost — makes this far-flung paradise surprisingly reachable.

Trip Introduction

Welcome to Northern Viti Levu & Bligh Waters, Fiji

Explore some of the South Pacific's most vibrant underwater landscapes along the north coast of Viti Levu and the legendary Bligh Waters. This region is celebrated for its breathtaking soft corals, abundant marine life, and exhilarating drift dives.

Often called the "Soft Coral Capital of the World," Bligh Waters lies between Viti Levu and Vanua Levu, where nutrient-rich currents fuel an explosion of color beneath the surface. Dive sites feature dramatic pinnacles, walls, and channels covered in vivid soft corals, sea fans, and sponges.

Marine life is equally impressive, with encounters including reef sharks, barracuda, tuna, schooling jacks, and an incredible diversity of reef fish. Macro enthusiasts will also discover hidden treasures among the reefs.

Diving conditions range from gentle to fast currents, offering something for both intermediate and experienced divers. Whether drifting along coral-covered slopes or exploring thriving reef systems, the north of Viti Levu and Bligh Waters deliver an unforgettable blend of color, life, and adventure.

Accommodation & Destination Experience

Escape to Fiji!

Hotel

Travelers will find the beautiful resort of Volivoli along the coastline of Fiji. The resort is located on the ocean's edge, in the headland between a rainforest and mangroves. The family-owned resort was built in 2005 and has become one of Fiji's award-winning resorts. Volivoli has 4 two-bedroom, luxury oceanfront villas, 1 two-bedroom family villa, 11 newly-renovated premium ocean view bures, 9 deluxe ocean-view rooms, and 8 ocean-view rooms each with a spectacular 180-degree view of the ocean. Every room comes with daily maid service, air-conditioning, screened windows, gives guests the ability to access wi-fi, and has filtered water that is replenished daily.

Dining

This resort is home to the Nuku Bar & Grill and has one pool bar and one beach bar. The Nuku Bar & Grill is an open-air restaurant that overlooks the Bligh waters. The cuisine is based on local Fijian cuisine with influence from the Indian culture and Fiji's Asian neighbors. Some items on the menu are inspired by cuisines from all around the world. All items are hand-selected daily from the local markets or local organic farmers. In addition to the set menu, Nuku Bar & Grill also offers nightly specials to mix it up a little for guests. This restaurant has five-star cuisine and is sure to have something for everybody to enjoy.

Spa

Daily Itinerary

DAY 1: RAKIRAKI

SAT. 15 JUL 2028

Arrive at the airport and meet your driver for transfers through the beautiful country to your resort. It's time to check in and enjoy your stay!

Getting There & Back

From Denver International (DEN)

SCAN TO
EXPLORE
THIS TRIP

Denver → Destination

1. Depart Denver (DEN). Fly to Los Angeles (LAX), then Fiji Airways nonstop LAX to Nadi (NAN) — about 11 hours over the Pacific.
2. You'll cross the International Date Line and "lose" a day on the calendar — totally normal; you get it back on the way home.
3. Clear Fijian immigration at Nadi (NAN).
4. Transfer with the HPS group up to Volivoli Beach Resort on the north coast of Viti Levu.

Trip Essentials

Fly into: Nadi International (NAN) via Los Angeles (LAX)
Currency: Fijian Dollar (FJD). ATMs at Nadi airport.
Language: English, Fijian & Fiji Hindi — English is official
Good to know: No visa for U.S. citizens (entry permit on arrival). A small reef-conservation fee applies. Expect the date-line day shift.
Pro tip: Sleep on the LAX–Nadi red-eye to beat jet lag.
Get nitrox-certified — it's unlimited and free here for certified divers.

Coming Home

1. Transfer back to Nadi (NAN).
2. Fly Fiji Airways nonstop Nadi to Los Angeles (LAX) — you cross the date line back and gain your day.
3. Clear U.S. Customs & Immigration at LAX — collect bags, hand in your declaration, re-check.
4. Fly LAX home to Denver (DEN).

Gear from High Plains Scuba

- ▶ 3mm wetsuit — warm South Pacific water
- ▶ Nitrox-capable dive computer — unlimited nitrox for certified divers
- ▶ SMB for drift dives in Bligh Water
- ▶ A good underwater camera or GoPro — the soft coral color is unreal
- ▶ Save-a-dive kit — you're a long way from a dive shop

Ask us about gear fitting, rentals, and nitrox certification before you fly.

YOUR ADVENTURE STARTS WITH A CALL

No pressure, no pricing surprises — just honest guidance
from divers who've been there.
